Bayside Council Apprenticeship Opportunities

Bayside Council's is giving school leavers an opportunity to 'earn as they learn', obtain qualifications and start a career in Local Government through an innovative apprenticeship program.

I am pleased Council is investing in the future of local young people through this program," Mayor Bill Saravinovski said.

"This is fantastic opportunity for someone looking to start a career and make a difference in the community.

"Last year our innovative graduate program saw a number of planning and engineering students join Council in June 2017 while continuing their studies.

"The six students, some of who have now graduated, have excelled in the program making a great difference to our community. Many are continuing to work for Bayside Council and moving ahead with their professional careers." Mayor Bill Saravinovski said.

This year Council is offering apprenticeships in greenkeeping, horticulture and landscaping as well as traineeships in childcare.

Applications close Friday 19 January

Information about the roles and how to apply are available on Council's website:
