Bayside Mayor investing millions and winning support from local MP

Bayside Mayor Bill Saravinovski says the new Bayside Council is investing millions to upgrade a once derelict fleet of work vehicles. "Our valued workers and residents deserve to have the best fleet to do the best jobs," said Mayor Bill Saravinovski as he stood amongst some of the new vehicles and plant equipment in Sir Joseph Banks Park.

"We've spent over 3 million dollars and there are millions more on back order that will fully replace, the worst and oldest council fleet I have ever seen. Bayside Council is one council, united by major roads, business and Sydney International Airport, it is vital that we maintain a level of service that is fair to everyone," Mayor Bill Saravinovski said.

Mr Ron Hoenig MP for Heffron also paid tribute to Mayor Bill Saravinovski when he made the following comments in State Parliament recently:

"I recognise and pay respect to His Worship the Mayor of Bayside, Councillor Bill Saravinovski, the inaugural mayor of Bayside Council. For more than three decades Councillor Saravinovski served the City of Rockdale as both a councillor and mayor. He did so with great zest and dedication. He has now taken on the job of leading a newly-merged council, which has completely different demographics and service levels—an enormous task. Bayside Council covers part of my electorate—that part of the electorate that I represented as mayor for more than three decades. It is a hard task to provide services to my constituents but Bill Saravinovski has done so with great dedication, zest and zeal. The House should thank him for his services to the Bayside community."
