## **Major developments served up at breakfast meeting**

---

Major development in Bayside will be on everyone's lips at a breakfast talk hosted by the Bayside Business Enterprise Centre on Wednesday 4 April.

"It's an important topic and something we need to be talking about. I urge everyone to take advantage of the opportunity to meet some of the key stakeholders in business community. There will be time to ask questions and hear from experts," Mayor Bill Saravinovski said.

Experts will share their knowledge and insights on the impact major developments are having on the region and what to expect over the next 10 years.

Key speakers include:

- Mr Steve Kamper — Member for Rockdale
- Mr Chris Pope — Head of Development for the Crown Group
- Dr Maria Atkinson AM — District Commissioner Eastern City Greater Sydney Commission
- Mr Ryan James — i.d. The Population Experts

Open to all local residents and business owners.

Tickets:

- \$49 BEC Members
- \$65 Non Members

Venue: Rockdale Town Hall

Parking: York Street Car Park (behind Town Hall)

Bookings: [Developingthefutureofbayside.eventbrite.com.au](http://Developingthefutureofbayside.eventbrite.com.au)

# DEVELOPING THE FUTURE

A business networking breakfast

## How major developments will impact the Bayside region

The Bayside region is undergoing a significant wave of development in infrastructure as well as large scale residential, retail and commercial projects. How we manage the challenges and take advantage of the opportunities these developments bring are key questions for all residents and business owners in the area.

### Unprecedented Growth in Bayside

Bayside LGA is the 6th largest by economic output in NSW. It contains two of the largest infrastructure assets in the nation: Sydney Airport and Port Botany, both of which are growing rapidly.

As well, the region is projected to increase in population by 37,000 people, or 23% in just 10 years between 2016 and 2026. To manage this significant growth requires major investment in new roads, rail, housing, retail and commercial development to provide jobs and the infrastructure needed to support them.
