Don't do it, it's illegal

Bayside Council is urging residents to make full use of its pre-booked and scheduled clean-up services and help stop illegal dumping.

"I would like to thank all residents that are using clean-up services and helping keep Bayside clean by disposing of waste responsibly. It is important Council and residents work together to keep our streets tidy and clean" Mayor Bill Saravinovski said.

The free Bayside Waste app, downloaded from app stores, provides information on Council's Waste & Cleansing Services and helps ensure residents never miss another collection day.

The app can also be used to report illegal dumping for Council to investigate. Last month Bayside Waste Regulation Officers and the Regional Illegal Dumping (RID) squad issued 6 notices under the NSW Protection of the Environment and Operations Act.
