3. To record detailed condition information, or as required for various application, a dilapidation report should be prepared and submitted with the application. A Dilapidation Report is a technical report with photo images of assets at a given point in time. It records the existing condition of assets prior to the commencement of the activity.

Privacy Statement

The personal information provided on this form (including your name and other details) will be handled in accordance with the *Privacy and Personal Information Protection Act 1998* and may be available to the public under various legislation. Refer also to the Privacy Statement on Council's website.

IMPORTANT INFORMATION FOR APPLICATIONS

Electronic Supply of Supporting Documents

Council requires electronic lodgement of all plans and supporting documentation in digital form (as PDF documents contained on non-returnable USB). Please also provide a paper copy of the Application Form until such time as Council's staged process to full electronic lodgement has been implemented. Refer to the Electronic Lodgement Guidelines sheet for further information.

Specifications for Supporting Information

Certificate of Currency – A Certificate of Currency must identify the proposed permit holder as the insured party, with the value of Public Liability Insurance being no less than \$20,000,000. The Certificate of Currency must have an expiry date at least three (3) months later than the finish date for the proposed work activity.

Classified Roads

On a *Classified Road*, Council is unable to approve your activity unless the concurrence of the Roads & Maritime Services (RMS) has been obtained. Additional processing time will be required for Council to refer applications to RMS. Activities and the hours of work may be restricted and/or subject to conditions. Activities will be unable to commence unless a Road Occupancy License (ROL) has also been obtained from the Transport Management Centre.

Electronic Lodgement Guidelines

Engineering Applications

Council requires electronic lodgement of all plans and supporting documentation in digital form (as PDF documents contained on a non-returnable USB). The USB will become the property of Bayside Council.

Application plans and supporting documentation is no longer accepted in paper form for all new engineering applications lodged on or after 1 January 2016, including applications for driveway works, frontage works, and work activities on Council sites.

Please note the original signed Application Form, containing owner's consent signature(s) and the Checklist relevant to your application will still be required in paper form until such time as Council's staged process to full electronic lodgement has been implemented.

Electronic documents submitted with your application must satisfy the following criteria:

PDF Format

All documents including plans must be submitted as PDF files viewable in Adobe Acrobat. Security settings must not be applied to electronic documents, this includes no passwords.

Documents

Must be A4 formatted and optimised for minimum size (online publishing).

Files larger than 5Mb should be broken up into logical parts and supplied as separate files, eg detailed reports etc.

Plans

Plans must be to scale, rotated to landscape and provided in PDF format.

It is preferred that plans be converted electronically rather than printed and scanned. The scale should be clearly displayed on all plan sheets as:

- ▶ Showing a scale e.g. 1:200 and separately state the original sheet size e.g. A3; or
- ▶ Showing scale as 1:200@A3.
- ▶ Black and white plans are to be at a resolution of 300dpi whether they are A4 or A1 etc.
- ▶ Coloured plans may be at a lower resolution.
- ▶ Plans and drawings each require a separate PDF file (please refer to Council's required naming conventions as listed later in this document).

NB: Traffic Control Plans are exempted from the requirements for scaling.

Multi-page Documents

Multiple paged documents should be provided as a single complete document and not as single images. Multiple paged documents must contain bookmarks to indicate the relevant sections of the document.

Accuracy

Electronic documents must be exact reproductions of the original paper copy documents or plans.

Access to Information

Documentation provided with an application may also be accessed in accordance with the requirements of the Government Information Public Access (GIPA) Act 2009.

File Naming Conventions – Protocol for Application Documentation

File naming conventions apply to all electronic documents, including plans and application forms. File names are to match the document requirements listed in the relevant Checklist. The example below is to assist and guide you in naming all plans and supporting documentation associated with your application.

Please follow the format exactly as it appears below, capturing the relevant property address for your application into each document title, for example:

Landscape Plan – 2 Bryant Street Rockdale¹ – Jones²

This will assist ease of location and consistency in storage of your documents in Council's electronic document management system.
