

Guide to preparing a Statement of Environmental Effects – checklist for minor development

Document Number: 18/151238 / TRIM F18/596

Under Section 4.15 of the Environmental Planning & Assessment Act 1979

Why is a Statement of Environmental Effects required?

A Statement of Environmental Effects (SEE) is a report which:

- details the proposed development;
- describes the site, including its history, constraints and context;
- addresses compliance of the proposal with relevant planning controls and regulations;
- identifies and explains the potential impacts of your development proposal; and
- describes steps proposed to manage any potential impacts resulting from the proposed works.

Whilst only a brief statement is required for proposals likely to have minimal impact, eg: internal alterations, and certain minor residential building work, you must still provide a clear explanation of why there will be little impact.
