Library Members Free Movie Streaming

Bayside Library members can access over 700 of the best indie movies and documentaries for FREE using their library membership.

"I am pleased that we are able to offer residents access to this wonderful resource of high quality movies and documentaries," Bayside Mayor Bill Saravinovski said.

Beamafilm's focuses on award-winning independent movies, documentaries, classics and Aussie masterpieces

Bayside Library members can stream these movies at home on any internet-connected device.

The service is accessed via the library catalogue page, where members can log in using their library membership number.

Many of Beamafilm's movies cannot be found on regular consumer streaming services, so it's the perfect solution if you're looking for something different to watch on the weekend.

Residents who don't have a library card can sign up for one on Council's website <https://www.bayside.nsw.gov.au>
