Independent Auditor's Reports:

– On the Financial Statements (Sect 417 [2])	89
– On the Conduct of the Audit (Sect 417 [3])	92

Overview

Bayside Council is constituted under the *Local Government Act 1993 (NSW)* and has its principal place of business at:

444/446 Princes Highway
Rockdale NSW 2216

Council's guiding principles are detailed in Chapter 3 of the LGA and includes:

- principles applying to the exercise of functions generally by council,
- principles to be applied when making decisions,
- principles of community participation,
- principles of sound financial management, and
- principles for strategic planning relating to the development of an integrated planning and reporting framework.

A description of the nature of Council's operations and its principal activities are provided in Note 2(b).

Through the use of the internet, we have ensured that our reporting is timely, complete and available at minimum cost. All press releases, financial statements and other information are publicly available on our website: www.bayside.nsw.gov.au.

Financial Statements 2019

Bayside Council**General Purpose Financial Statements**
for the year ended 30 June 2019**Statement by Councillors and Management**made pursuant to Section 413(2)(c) of the *Local Government Act 1993 (NSW)* (as amended)

Bayside Councils financial reports for 2016/17 and 2017/18 received a disclaimed audit opinion from its auditor, Audit Office of NSW. Council has completed significant work to address the underlying issues behind the disclaimer, including the implementation of internal control environment, revaluation of a number of asset classes and re-estimation of employee leave entitlements. However this work was focused on the correction of balances as at 30 June 2019 and could not correct the issues of the past, which are included in the opening balances, the reported operating result and cashflows.

Council recognised \$84.5m of stormwater drainage assets in Note 10(a). Council was unable to provide sufficient evidence to audit to support the completeness of the stormwater drainage assets recorded in the financial statements as at 30 June 2019.

Bayside Council has developed a detailed action plan to address these issues.

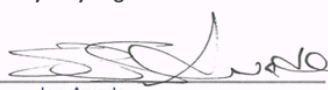

Apart from the issues raised above, the attached General Purpose Financial Statements have been prepared in accordance with:

- the *Local Government Act 1993 (NSW)* (as amended) and the regulations made thereunder,
- the Australian Accounting Standards and other pronouncements of the Australian Accounting Standards Board
- the Local Government Code of Accounting Practice and Financial Reporting.

Apart from the issues raised above, to the best of our knowledge and belief, these financial statements:

- present fairly the Council's financial position as at 30 June 2019,
- accord with Council's accounting and other records.

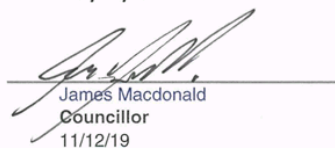

We are not aware of any other matter that would render these statements false or misleading in any way. Signed in accordance with a resolution of Council made on 11/12/19.

Joe Awada
Mayor
11/12/19

Meredith Wallace

Bayside Council

Notes to the Financial Statements for the year ended 30 June 2019

Note 1. Basis of preparation (continued)

These financial statements were authorised for issue by Council on 11/12/2019.

Council has the power to amend and reissue these financial statements.

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Australian Accounting Interpretations, the *Local Government Act 1993 (NSW)* and Regulations, and the Local Government Code of Accounting Practice and Financial Reporting. Council is a not for-profit entity.

The financial statements are presented in Australian dollars and are rounded to the nearest thousand dollars.

Unless otherwise indicated, all amounts disclosed in the financial statements are actual amounts.

Specific budgetary amounts have been included for comparative analysis (to actuals) in the following reports and notes:

- Income statement
- Statement of cash flows
- Note 20 – Material budget variations

and are clearly marked.

(a) New and amended standards adopted by Council

During the year, Council adopted all standards which were mandatorily effective for the first time at 30 June 2019.

Those newly adopted standards which had an impact on reported position, performance and/or disclosures have been discussed in Note 14.

(b) Historical cost convention

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of certain financial assets and liabilities and certain classes of infrastructure, property, plant and equipment and investment properties.

(c) Significant accounting estimates and judgements

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Council's accounting policies.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Council and that are believed to be reasonable under the circumstances.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 1. Basis of preparation (continued)

Critical accounting estimates and assumptions

Council makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year include:

- (i) estimated fair values of infrastructure, property, plant and equipment – refer Note 10(a),
- (ii) estimated tip remediation provisions – refer Note 13,
- (iii) employee benefit provisions – refer Note 13.

Significant judgements in applying the Council's accounting policies

- (i) Impairment of receivables

Council has made a significant judgement about the impairment of a number of its receivables - refer Note 7.

Monies and other assets received by Council

(a) The Consolidated Fund

In accordance with the provisions of Section 409(1) of the *Local Government Act 1993 (NSW)*, all money and property received by Council is held in the Council's Consolidated Fund unless it is required to be held in the Council's Trust Fund.

The Consolidated Fund had been included in the financial statements of the Council.

Cash and other assets of the following entities have been included as part of the Consolidated Fund:

- General purpose operations

(b) The Trust Fund

In accordance with the provisions of Section 411 of the *Local Government Act 1993 (NSW)* (as amended), a separate and distinct Trust Fund is maintained to account for all money and property received by the Council in trust which must be applied only for the purposes of, or in accordance with the trusts relating to those monies. Trust monies and property subject to Council's control have been included in these reports.

Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to the taxation authority is included with other receivables or payables in the Statement of Financial Position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities that are recoverable from, or payable to the taxation authority are presented as operating cash flows.

Bayside Council

Notes to the Financial Statements for the year ended 30 June 2019

Note 1. Basis of preparation (continued)

New accounting standards and interpretations issued not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2019 reporting periods. Council's assessment of the impact of the new standards, and interpretations relevant to them, is set out below:

Effective for annual reporting periods beginning on or after 1 July 2019

AASB 16 Leases

AASB 16 will result in most operating leases of an entity being brought onto the statement of financial position. There are limited exceptions relating to short-term leases and low-value assets which may remain off the balance sheet.

The calculation of the lease liability will take into account appropriate discount rates, assumptions about the lease term, and increases in lease payments.

A corresponding right to use asset will be recognised, which will be amortised over the term of the lease.

Rent expense will no longer be shown. The profit and loss impact of the leases will be through the amortisation and interest charges.

AASB 15 Revenue from Contracts with Customers and associated amending standards.

AASB15 introduces a five-step process for revenue recognition, with the core principle of the new standard being for entities to recognise revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration (that is, payment) to which the entity expects to be entitled in exchange for those goods or services.

Accounting policy changes will arise in the timing of revenue recognition, treatment of contracts costs and contracts which contain a financing element.

AASB 1058 Income of NFP Entities

AASB 1058 supersedes all the income recognition requirements relating to councils, previously in AASB 1004 Contributions. Under AASB 1058 the future timing of income recognition will depend on whether the transaction gives rise to a liability or other performance obligation (a promise to transfer a good or service) related to an asset (such as cash or another asset) received by an entity.

AASB 1058 also applies when a council receives volunteer services or enters into other transactions in which the consideration to acquire an asset is significantly less than the fair value of the asset, and where the council's objective is principally to enable the asset to further the council's objectives. In cases where the council enters into other transactions, the council recognises and measures the asset at fair value in accordance with the applicable Australian Accounting Standards (e.g. AASB 116 Property, Plant and Equipment).

Upon initial recognition of the asset, this standard requires council to consider whether any other financial statement elements (called 'related amounts') should be recognised in accordance with the applicable accounting standard, such as:

- (a) contributions by owners
- (b) revenue, or a contract liability arising from a contract with a customer
- (c) a lease liability
- (d) a financial instrument, or
- (e) a provision.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 1. Basis of preparation (continued)

If the transaction is a transfer of a financial asset to enable council to acquire or construct a recognisable non-financial asset to be controlled by council (i.e. an in-substance acquisition of a non-financial asset), the council recognises a liability for the excess of the fair value of the transfer over any related amounts recognised. Council will then recognise income as it satisfies its obligations under the transfer similarly to income recognition in relation to performance obligations under AASB 15.

If the transaction does not enable council to acquire or construct a recognisable non-financial asset to be controlled by council, then any excess of the initial carrying amount of the recognised asset over the related amounts is recognised as income.

AASB 2018-8 Amendments to Australian Accounting Standards – Right-of-Use Assets of Not-for-Profit Entities

This Standard amends AASB 1, AASB 16, AASB 117, AASB 1049 and AASB 1058 to provide a temporary option for not-for-profit entities to not apply the fair value initial measurement requirements for right-of-use assets arising under leases with significantly below market terms and conditions, principally to enable the entity to further its objectives (for example, concessionary or peppercorn leases).

The Standard requires an entity that elects to apply the option (i.e. measures a class or classes of such right-of-use assets at cost rather than fair value) to include additional disclosures in the financial statements to ensure users understand the effects on the financial position, financial performance and cash flows of the entity arising from these leases.

As per a NSW Office of Local Government recommendation, Council has elected to measure right-of-use assets (under a concessionary or peppercorn lease) at cost. The standard requires additional disclosures be provided in relation to below market-value leases measured at cost.

AASB 2014-10 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments address an acknowledged inconsistency between the requirements of AASB 10, and those in AASB 128 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture.

The main consequence of the amendments is that a full gain or loss is recognised when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognised when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary.

Apart from those standards listed above, there are no other released standards (with future effective dates) that are expected to have a material impact on Council.

Council has not elected to apply any pronouncements before their operative date in these financial statements.

New accounting standards adopted during the year

During the year, Council adopted all standards which were mandatorily effective for the first time at 30 June 2019. The standards which had an impact on reported position, performance or disclosures have been discussed in Note 14.

Notes to the Financial Statements

for the year ended 30 June 2019

Note 2(b). Council functions/activities – component descriptions

Details relating to the Council's functions/activities as reported in Note 2(a) are as follows:

Bayside will be a Vibrant Place

Built forms focus on efficient use of energy, are sympathetic to the natural landscape and make our area a great place to live. Neighbours, visitors and businesses are connected in dynamic urban environments.

Our People will be Connected in a Smart City

Knowledge sharing and collaboration ensures that we have the expertise and relationships to lead with integrity, adapt to change, connect vulnerable people to community and effectively respond in times of adversity and stress.

Bayside will be green, leafy and sustainable

The biodiversity of the area is protected and enhanced through collaborative partnerships. Vital habitats are supported to rehabilitate, thrive, adapt and recover from risks and climate events. The landscape will be preserved and regenerated to benefit a healthy environment now and in future.

We will be a Prosperous Community

Business innovation, technology, flourishing urban spaces and efficient transport will attract diverse business, skilled employees and generate home based business. Growth in services to the local community will generate employment support, a thriving community and livelihoods.

Pensioners' subsidies:		
– Domestic waste management	395	385
Total annual charges	30,728	28,981
TOTAL RATES AND ANNUAL CHARGES	116,974	110,441

NB: Council has amended comparative values due to changes on how pensioner rebates and subsidies are disclosed.

Council has used 2016 year valuations provided by the NSW Valuer General in calculating its rates.

Accounting policy for rates and annual charges

Rates and annual charges are recognised as revenue when the Council obtains control over the assets comprising these receipts.

Pensioner rebates relate to reductions in rates and certain annual charges for eligible pensioners' place of residence in the local government council area that are not subsidised by the NSW Government.

Pensioner rate subsidies are received from the NSW Government to provide a contribution towards the pensioner rebates.

Control over assets acquired from rates and annual charges is obtained at the commencement of the rating year as it is an enforceable debt linked to the rateable property or, where earlier, upon receipt of the rates.

Recoveries under management agreement		266	–
Other		243	88
<u>TOTAL OTHER REVENUE</u>		<u>16,438</u>	<u>14,744</u>

Accounting policy for other revenue

Council recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Council and specific criteria have been met for each of the Council's activities as described below. Council bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Parking fees and fines are recognised as revenue when the service has been provided, or when the penalty has been applied, whichever occurs first.

Rental income is accounted for on a straight-line basis over the lease term.

Miscellaneous sales are recognised when physical possession has transferred to the customer which is deemed to be the point of transfer of risks and rewards.

Other income is recorded when the payment is due, the value of the payment is notified, or the payment is received, whichever occurs first.

TOTAL GRANTS AND CONTRIBUTIONS		9,938	8,534	35,227	66,289

Accounting policy for grants and contributions

Control over grants and contributions is normally obtained upon their receipt (or acquittal) and is valued at the fair value of the granted or contributed asset at the date of transfer.

Where grants or contributions recognised as revenues during the financial year were obtained on condition that they be expended in a particular manner or used over a particular period and those conditions were un-discharged at reporting date, the unused grant or contribution is disclosed below.

Council has obligations to provide facilities from contribution revenues levied on developers under the provisions of sections 7.4, 7.11 and 7.12 of the *Environmental Planning and Assessment Act 1979*.

While Council generally incorporates these amounts as part of a Development Consents Order, such developer contributions are only recognised as income upon receipt by Council, due to the possibility that individual development consents may not be acted upon by the applicant and, accordingly, would not be payable to Council.

Developer contributions may only be expended for the purposes for which the contributions were required, but the Council may apply contributions according to the priorities established in work schedules.

A liability is recognised in respect of revenue that is reciprocal in nature to the extent that the requisite service has not been provided at reporting date.

Bayside Council

Number of 'full-time equivalent' employees (FTE) at year end (incl. vacancies)	848	824

Accounting policy for employee benefits and on-costs

Employee benefit expenses are recorded when the service has been provided by the employee.

Retirement benefit obligations

All employees of the Council are entitled to benefits on retirement, disability or death. Council contributes to various defined benefit plans and defined contribution plans on behalf of its employees.

Superannuation plans

Contributions to defined contribution plans are recognised as an expense as they become payable. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Council participates in a Defined Benefit Plan under the Local Government Superannuation Scheme, however, when sufficient information to account for the plan as a defined benefit is not available, therefore Council accounts for its obligations to defined benefit plans on the same basis as its obligations to defined contribution plans, i.e. as an expense when it becomes payable – refer to Contingent Assets and Liabilities note for more information.

(b) Borrowing costs	2019	2018

TOTAL DEPRECIATION, AMORTISATION AND IMPAIRMENT / REVALUATION DECREMENT FOR INTANGIBLES AND IPP&E		26,245	21,440

Accounting policy for depreciation, amortisation and impairment expenses of intangibles and IPP&E**Depreciation and amortisation**

Depreciation and amortisation are calculated using the straight line method to allocate their cost, net of their residual values, over their estimated useful lives. Useful lives are included in Note 10 for IPPE assets and Note 11 for intangible assets.

Depreciation is capitalised where in-house assets have contributed to new assets.

Impairment of non-financial assets

Council assets held at fair value that are not held primarily for their ability to generate net cash flow, and that are deemed to be specialised, are no longer required to be tested for impairment under AASB 136. This is because these assets are assessed on an annual basis to ensure that the carrying amount is not materially different from fair value and therefore an impairment loss would be captured during this assessment.

Intangible assets that have an indefinite useful life, or are not yet available for use, are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets that do not meet the criteria above are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 4. Expenses from continuing operations (continued)

(d) Depreciation, amortisation and impairment of intangible assets and IPP&E (continued)

Accounting policy for depreciation, amortisation and impairment expenses of intangibles and IPP&E

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows that are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

Impairment losses for revalued assets are firstly offset against the amount in the revaluation surplus for the class of asset, with only the excess to be recognised in the Income Statement.

(i) Financial assets designated as at fair value through other comprehensive income

Fair value at 30/06/19 Dividend income recognised during 1/7/18 – 30/6/19

At 1 July 2018, Council designated the investments shown below as financial assets as at fair value through other comprehensive income because these financial assets represent investments that the Council intends to hold for the long-term for strategic purposes. In 2018, these investments were classified as available for sale.

IAG Shares issued on demutualisation	11	–
Total	11	–

No strategic investments were disposed of during 2019, and there were no transfers of any cumulative gain or loss within equity relating to these investments. Dividends received were less than \$1,000.

Bayside Council

Notes to the Financial Statements for the year ended 30 June 2019

Note 6(b). Investments (continued)

Accounting policy for investments

Accounting policy under AASB 9 – applicable from 1 July 2018

Financial instruments are recognised initially on the date that the Council becomes party to the contractual provisions of the instrument. On initial recognition, all financial instruments are measured at fair value plus transaction costs (except for instruments measured at fair value through profit or loss where transaction costs are expensed as incurred).

Financial Assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification

On initial recognition, Council classifies its financial assets into the following categories – those measured at:

- amortised cost
- fair value through profit and loss
- fair value through other comprehensive income – equity instrument

Financial assets are not reclassified subsequent to their initial recognition.

Amortised cost

Assets measured at amortised cost are financial assets where:

- the business model is to hold assets to collect contractual cash flows, and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Council's financial assets measured at amortised cost comprise trade and other receivables and cash and cash equivalents in the Statement of Financial Position.

Subsequent to initial recognition, these assets are carried at amortised cost using the effective interest rate method less provision for impairment.

Interest income, impairment and gains or loss on de-recognition are recognised in profit or loss.

Fair value through other comprehensive income – equity instruments

Council has a strategic investment in an entity over which they do not have significant influence nor control. Council has made an irrevocable election to classify this equity investment as fair value through other comprehensive income as it is not held for trading purposes.

This investment is carried at fair value with changes in fair value recognised in other comprehensive income (financial asset reserve). On disposal any balance in the financial asset reserve is transferred to accumulated surplus and is not reclassified to profit or loss.

Other net gains and losses excluding dividends are recognised in Other Comprehensive Income Statement.

Financial assets through profit or loss

All financial assets not classified as measured at amortised cost or fair value through other comprehensive income as described above are measured at fair value through profit or loss.

Net gains or losses, including any interest or dividend income, are recognised in profit or loss.

Council's financial assets measured at fair value through profit or loss comprise investments in FRNs and NCDs in the Statement of Financial Position.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 6(b). Investments (continued)

Accounting policy under AASB 139 – applicable for 2018 comparatives only

Classification

Council classifies its financial assets in the following categories: financial assets at fair value through profit or loss; loans and receivables; held-to-maturity investments; and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and, in the case of assets classified as held-to-maturity, re-evaluates this designation at each reporting date.

(a) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short-term. Assets in this category are held at fair value with changes in value taken through profit or loss at each reporting period.

(b) Held to maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that Council's management has the positive intention and ability to hold to maturity. Assets in this category are measured at amortised cost.

(c) Available for sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term. Assets in this category are held at fair value with changes in fair value taken to other comprehensive income.

Recognition and de-recognition

Regular purchases and sales of financial assets are recognised on trade date: the date on which Council commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the Income Statement. Investments are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and Council has transferred substantially all the risks and rewards of ownership.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in equity are included in the Income Statement as gains and losses from investment securities.

Impairment of financial assets

Council assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Impairment of available for sale investments

In the case of equity investments classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost is considered an indicator that the assets are impaired.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 7. Receivables (continued)

Accounting policy for receivables

Recognition and measurement

Receivables are included in current assets, except for those with maturities greater than 12 months after the reporting date which are classified as non-current assets.

Receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. Receivables are generally due for settlement within 30 days.

Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

Impairment

Accounting policy under AASB 9 applicable from 1 July 2018

Impairment of financial assets measured at amortised cost is recognised on an expected credit loss (ECL) basis.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition, and when estimating expected credit loss (ECL), the Council considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on Council's historical experience and informed credit assessment, and including forward-looking information.

When considering the expected credit loss (ECL) for rates debtors, Council takes into account that unpaid rates represent a charge against the rateable property that will be recovered when the property is next sold.

For non-rates debtors, Council uses the presumption that an asset which is more than 60 days past due has seen a significant increase in credit risk.

The Council uses the presentation that a financial asset is in default when:

- the other party is unlikely to pay its credit obligations to the Council in full, without recourse by the Council to actions such as realising security (if any is held) or
- the financial assets (for non-rates debtors) are more than 90 days past due.

Credit losses are measured as the present value of the difference between the cash flows due to the entity in accordance with the contract, and the cash flows expected to be received. This is applied using a probability weighted approach.

On initial recognition of the asset, an estimate of the expected credit losses for the next 12 months is recognised. Where the asset has experienced significant increase in credit risk then the lifetime losses are estimated and recognised.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

The Council writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the receivables are over 1 year past due, whichever occurs first.

None of the receivables that have been written off are subject to enforcement activity.

Where the Council renegotiates the terms of receivables due from certain customers, the new expected cash flows are discounted at the original effective interest rate and any resulting difference to the carrying value is recognised in profit or loss.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 7. Receivables (continued)

Accounting policy under AASB 139 – applicable for 2018 comparatives only

For loans and receivables the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in profit or loss.

Collectability of receivables is reviewed on an on-going basis. Debts that are known to be uncollectable are written off by reducing the carrying amount directly. An allowance account (provision for impairment of receivables) is used when there is objective evidence that Council will not be able to collect all amounts due according to the original terms of the receivables.

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 60 days overdue) are considered indicators that the receivable is impaired. When a receivable for which an impairment allowance had been recognised becomes uncollectable in a subsequent period it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the Income Statement.

Rates and annual charges outstanding are secured against the property.

Bayside Council

Notes to the Financial Statements
for the year ended 30 June 2019

(b) Other assets				
Prepayments	397	–	551	–
TOTAL OTHER ASSETS	397	–	551	–

Externally restricted assets

There are no restrictions applicable to the above assets.

Accounting policy**Raw materials and stores, work in progress and finished goods**

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Costs are assigned to individual items of inventory on the basis of weighted average costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land held for resale/capitalisation of borrowing costs

Land held for resale is stated at the lower of cost and net realisable value. Cost is assigned by specific identification and includes the cost of acquisition, and development and borrowing costs during development. When development is completed borrowing costs and other holding charges are expensed as incurred.

Borrowing costs included in the cost of land held for resale are those costs that would have been avoided if the expenditure on the acquisition and development of the land had not been made. Borrowing costs incurred while active development is interrupted for extended periods are recognised as expenses.

Bayside Council

Notes to the Financial Statements

Plus new transfers in:		
– Assets 'held for sale'	–	1,170
Closing balance of 'held for sale' non-current assets and operations	2,190	3,360

Accounting policy for non-current assets classified as held for sale

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continued use. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as assets arising from employee benefits; financial assets; and investment property that is carried at fair value.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale.

Renewals are defined as the replacement of existing assets (as opposed to the acquisition of new assets).

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 10(a). Infrastructure, property, plant and equipment (continued)

Accounting policy for infrastructure, property, plant and equipment

Infrastructure, property, plant and equipment are held at fair value. Independent comprehensive valuations are performed at least every five years, however the carrying amount of assets is assessed by Council at each reporting date to confirm that it is not materially different from current fair value.

Increases in the carrying amounts arising on revaluation are credited to the asset revaluation reserve. To the extent that the increase reverses a decrease previously recognising profit or loss relating to that asset class, the increase is first recognised as profit or loss. Decreases that reverse previous increases of assets in the same class are first charged against revaluation reserves directly in equity to the extent of the remaining reserve attributable to the class; all other decreases are charged to the Income Statement.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to Council and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Income Statement during the financial period in which they are incurred.

When infrastructure, property, plant and equipment are acquired by Council for nil or nominal consideration, the assets are initially recognised at their fair value at acquisition date.

Land is not depreciated. The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Council will obtain ownership at the end of the lease term. Depreciation on other assets is calculated using the straight line method to allocate their cost, net of their residual values, over their estimated useful lives as follows:

Plant and equipment	Years	Other equipment	Years
Office equipment	4 to 10	Playground equipment	5 to 15
Office furniture	10	Benches, seats etc.	10 to 20
Computer equipment	4		
Vehicles	5 to 7	Buildings	
Heavy plant/road making equipment	5 to 8	Buildings	10 to 100
Other plant and equipment	5 to 8		
		Stormwater assets	
		Drains	60 to 100
		Culverts	60 to 100
		Flood control structures	60 to 100
Transportation assets		Other infrastructure assets	
Sealed roads: surface	35	Swimming pools	80
Sealed roads: structure	100	Unsealed roads	20
Bridge: concrete	100	Other open space/recreational assets	5 to 100
Bridge: other	80	Other infrastructure	80
Road pavements	100 to 120		
Kerb, gutter and footpaths	40 to 100	Library Assets	5

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 10(a). Infrastructure, property, plant and equipment (continued)

Accounting policy for infrastructure, property, plant and equipment (continued)

Land under roads

Land under roads is land under roadways and road reserves including land under footpaths, nature strips and median strips.

Council has elected not to recognise land under roads acquired before 1 July 2008 in accordance with AASB 1051 Land Under Roads.

Land under roads acquired after 1 July 2008 is recognised in accordance with AASB 116 Property, Plant and Equipment.

Crown reserves

Crown Reserves under Council's care and control are recognised as assets of the Council. While ownership of the reserves remains with the Crown, Council retains operational control of the reserves and is responsible for their maintenance and use in accordance with the specific purposes to which the reserves are dedicated. Improvements on Crown Reserves are also recorded as assets, while maintenance costs incurred by Council and revenues relating to the reserves are recognised within Council's Income Statement.

Rural Fire Service assets

Under section 119 of the *Rural Fire Services Act 1997 (NSW)*, "all fire fighting equipment purchased or constructed wholly or from money to the credit of the Fund is to be vested in the council of the area for or on behalf of which the fire fighting equipment has been purchased or constructed".

¹. The net book value of intangible assets represent:

– software includes capitalised development costs being an internally generated intangible assets

2,345	3,355
2,345	3,355

Accounting policy for intangible assets

IT development and software

Costs incurred in developing products or systems and costs incurred in acquiring software and licenses that will contribute to future period financial benefits through revenue generation and/or cost reduction are capitalised to software and systems. Costs capitalised include external direct costs of materials and services, direct payroll, and payroll-related costs of employees' time spent on the project. Amortisation is calculated on a straight line basis over periods generally ranging from two to ten years.

IT development costs include only those costs directly attributable to the development phase and are only recognised following completion of technical feasibility, and where Council has an intention and ability to use the asset.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 12. Payables and borrowings (continued)

Security over loans

All loans secured over future cash flows from Councils general purpose revenues.

Leased liabilities are secured by the underlying leased assets.

Accounting policy for payables and borrowings

Council measures all financial liabilities initially at fair value less transaction costs, subsequently financial liabilities are measured at amortised cost using the effective interest rate method.

The financial liabilities of the Council comprise trade payables, bank and other loans.

Payables

These amounts represent liabilities for goods and services provided to the Council prior to the end of financial year that are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Income Statement over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the Statement of Financial Position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in other income or finance cost.

Borrowings are classified as current liabilities unless Council has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 13. Provisions (continued)

Nature and purpose of non-employee benefit provisions

Asset remediation

Council has as a result of past operating activities, various sites situated within its LGA, that will require it to undertake restoration and remediation works.

Council has legal/public obligations to make restore, rehabilitate and reinstate Kendall Street Reserve and Crawford Road, and has included a total provision of \$3,561K for these works.

Accounting policy for provisions

Provisions are recognised when Council has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Employee benefits

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be wholly settled within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liability for annual leave and accumulating sick leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented as payables.

Other long-term employee benefit obligations

The liability for long service leave and annual leave that is not expected to be wholly settled within 12 months after the end of the period in which the employees render the related service is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method.

Consideration is given to expected future wage and salary levels, experience of employee departures, and periods of service. Expected future payments are discounted using market yields at the end of the reporting period on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

On-costs

The employee benefit provisions include the aggregate on-cost liabilities that will arise when payment of current employee benefits is made in future periods.

These amounts include superannuation, and workers compensation expenses which will be payable upon the future payment of certain leave liabilities which employees are entitled to at the reporting period.

The obligations are presented as current liabilities in the Statement of Financial Position if the Council does not have an unconditional right to defer settlement for at least 12 months after the reporting date, regardless of when the actual settlement is expected to occur.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 13. Provisions (continued)

Provisions for close-down and restoration, and environmental clean-up costs – tips and quarries

Restoration

Close down and restoration costs include the dismantling and demolition of infrastructure and the removal of residual materials and remediation of disturbed areas. Estimated close down and restoration costs are provided for in the accounting period when the obligation arising from the related disturbance occurs, whether this occurs during the development or during the operation phase, based on the net present value of estimated future costs.

Provisions for close down and restoration costs do not include any additional obligations which are expected to arise from future disturbance. The costs are estimated on the basis of a closure plan. The cost estimates are calculated annually during the life of the operation to reflect known developments, eg updated cost estimates and revisions to the estimated lives of operations, and are subject to formal review at regular intervals.

Rehabilitation

Where rehabilitation is conducted systematically over the life of the operation, rather than at the time of closure, provision is made for the estimated outstanding continuous rehabilitation work at each reporting date and the cost is charged to the Income Statement.

Provision is made for the estimated present value of the costs of environmental clean-up obligations outstanding at the reporting date. These costs are charged to the Income Statement. Movements in the environmental clean-up provisions are presented as an operating cost, except for the unwinding of the discount which is shown as a borrowing cost.

Remediation procedures generally commence soon after the time the damage, remediation process and estimated remediation costs become known, but may continue for many years depending on the nature of the disturbance and the remediation techniques.

As noted above, the ultimate cost of environmental remediation is uncertain and cost estimates can vary in response to many factors including changes to the relevant legal requirements, the emergence of new restoration techniques or experience at other locations. The expected timing of expenditure can also change, for example in response to changes in quarry reserves or production rates. As a result there could be significant adjustments to the provision for close down and restoration and environmental clean up, which would affect future financial results.

Other movements in the provisions for close-down and restoration costs, including those resulting from new disturbance, updated cost estimates, changes to the estimated lives of operations and revisions to discount rates are capitalised within infrastructure, property, plant and equipment. These costs are then depreciated over the lives of the assets to which they relate.

Close-down and restoration costs are a normal consequence of tip and quarry operations, and the majority of close-down and restoration expenditure is incurred at the end of the life of the operations. Although the ultimate cost to be incurred is uncertain, Council estimates the respective costs based on feasibility and engineering studies using current restoration standards and techniques.

Bayside Council

Notes to the Financial Statements for the year ended 30 June 2019

Note 14. Accumulated surplus, revaluation reserves, changes in accounting policies, changes in accounting estimates and errors

(a) Nature and purpose of reserves

Infrastructure, property, plant and equipment revaluation reserve

The infrastructure, property, plant and equipment revaluation reserve is used to record increments and decrements in the revaluation of non-current assets.

(b) Changes in accounting policies due to adoption of new accounting standards – not-retrospective

During the year, Council adopted a number of new accounting standards. The impact of the adoption and associated transition disclosures are shown below.

The Council has adopted AASB 9 *Financial Instruments* for the first time in the current year with a date of initial adoption of 1 July 2017.

As part of the adoption of AASB 9, the Council adopted consequential amendments to other accounting standards arising from the issue of AASB 9 as follows:

– AASB 101 *Presentation of Financial Statements* requires the impairment of financial assets to be presented in a separate line item in the income statement. In the prior year, this information was presented as part of other expenses.

– AASB 7 *Financial Instruments: Disclosures* requires amended disclosures due to changes arising from AASB 9. These disclosures have been provided for the current year.

The key changes to Council's accounting policy and the impact on these financial statements from applying AASB 9 are described below.

Changes in accounting policies resulting from the adoption of AASB 9 have been applied retrospectively except Council has not restated any amounts relating to classification and measurement requirements, including impairment, which have been applied from 1 July 2018.

Classification of financial assets

The financial assets of Council have been reclassified into one of the following categories on adoption of AASB 9, based primarily on the business model in which a financial asset is managed and its contractual cash flow characteristics are:

- measured at amortised cost
- fair value through profit or loss
- fair value through other comprehensive income – equity instruments

Measurement of equity instruments

All equity instruments of the Council are measured at fair value under AASB 9 whereas there was a cost exception under AASB 139 that allowed certain unlisted investments to be carried at amortised cost in the absence of a reliable measurement of fair value. Any difference in the previous carrying amount and the fair value is recognised in the opening retained earnings (or other component of equity, as appropriate) at 1 July 2018.

Equity instruments are no longer subject to impairment testing and therefore all movements on equity instruments, classified as fair value through other comprehensive income, are taken to the relevant reserve.

Impairment of financial assets

The incurred loss model from AASB 139 has been replaced with an expected credit loss model in AASB 9 for assets measured at amortised cost. This has resulted in the earlier recognition of credit loss (bad debt provisions).

Equity Securities	FVTPL - Held for Trading	FVOCI - Equity	8	–	–	8
Floating Rate Notes	FVTPL - Held for Trading	FVTPL	58,602	–	–	58,602
Total financial assets under AASB 9 at 1 July 2018			413,148	–	(133)	413,015

Notes to the table above

Reclassify investments from 'available for sale' to FVOCI–equity

Council previously classified investments as 'available for sale' with changes in value being taken through a financial asset reserve. On adoption of AASB 9, investments with a fair value of \$xx were reclassified from the 'available for sale investment revaluation reserve' to the 'financial asset at fair value through other comprehensive income reserve' since they are not held for trading.

Reclassification from FVTPL to FVOCI–equity

Certain equity instruments that were previously measured at FVTPL have been designated at FVOCI–equity since, on initial application of AASB 9, these instruments are not held for trading. Related fair value movements of \$0 were transferred from retained earnings to FVOCI reserve on adoption of AASB 9. The fair value movement that would have been recognised in profit or loss for the current year if the assets had not been reclassified is \$0.

Reclassification from 'held to maturity' to 'amortised cost'

Term deposits that would previously have been classified as 'held to maturity' are now classified at 'amortised cost'. Council intends to hold the assets to maturity to collect contractual cash flows and these cash flows consist solely of payments of principal and interest on the principal amount outstanding. There was no difference between the previous carrying amount and the revised carrying amount of these assets.

Accounting policy for joint arrangements

The Council has determined that it has only joint ventures.

Joint ventures

Interests in joint ventures are accounted for using the equity method in accordance with AASB128 *Investments in Associates and Joint Ventures*. Under this method, the investment is initially recognised at cost and the carrying amount is increased or decreased to recognise the Council's share of the profit or loss and other comprehensive income of the joint venture after the date of acquisition.

If the Council's share of losses of a joint venture equals or exceeds its interest in the joint venture, the Council discontinues recognising its share of further losses.

The Council's share in the joint venture's gains or losses arising from transactions between itself and its joint venture are eliminated.

Adjustments are made to the joint venture's accounting policies where they are different from those of the Council for the purpose of the consolidated financial statements.

Note 17. Commitments

\$ '000	2019	2018
(a) Capital commitments (exclusive of GST)		
Capital expenditure committed for at the reporting date but not recognised in the financial statements as liabilities:		
Property, plant and equipment		
Buildings	9,131	140
Plant and equipment	771	2,657
Road infrastructure	3,255	–
Infrastructure Works	14,630	9,292
Information Management	260	580
Other	2	6
Total commitments	28,049	12,675
These expenditures are payable as follows:		
Within the next year	28,049	12,675
Total payable	28,049	12,675
Sources for funding of capital commitments:		
Unrestricted general funds	738	3,403
Section 7.11 and 64 funds/reserves	6,168	9,272
Externally restricted reserves	7,602	–
Internally restricted reserves	13,541	–
Total sources of funding	28,049	12,675
Details of capital commitments		
Completion of Council's capital works program which has commenced.		
5-9 Bryant Street was purchased May 2019. Settlement of property is July 2019		
(b) Operating lease commitments (non-cancellable)		
a. Commitments under non-cancellable operating leases at the reporting date, but not recognised as liabilities are payable:		
Within the next year	104	17
Later than one year and not later than 5 years	105	62
Total non-cancellable operating lease commitments	209	79
b. Non-cancellable operating leases include the following assets:		
Office equipment.		
Contingent rentals may be payable depending on the condition of items or usage during the lease term.		
Conditions relating to operating leases:		
– All operating lease agreements are secured only against the leased asset.		
– No lease agreements impose any financial restrictions on Council regarding future debt etc.		

Bayside Council

Notes to the Financial Statements for the year ended 30 June 2019

Note 18. Contingencies and other liabilities/assets not recognised

The following assets and liabilities do not qualify for recognition in the Statement of Financial Position, but their knowledge and disclosure is considered relevant to the users of Council's financial report.

LIABILITIES NOT RECOGNISED:

1. Guarantees

(i) Defined benefit plans

Council is party to an Industry Defined Benefit Plan under the Local Government Superannuation Scheme, named The Local Government Superannuation Scheme – Pool B (the Scheme) which is a defined benefit plan that has been deemed to be a 'multi-employer fund' for purposes of AASB119 *Employee Benefits* for the following reasons:

- Assets are not segregated within the sub-group according to the employees of each sponsoring employer.
- The contribution rates have been the same for all sponsoring employers. That is, contribution rates have not varied for each sponsoring employer according to the experience relating to the employees of that sponsoring employer.
- Benefits for employees of all sponsoring employers are determined according to the same formulae and without regard to the sponsoring employer.
- The same actuarial assumptions are currently used in respect of the employees of each sponsoring employer.

Given the factors above, each sponsoring employer is exposed to the actuarial risks associated with current and former employees of other sponsoring employers, and hence shares in the associated gains and losses (to the extent that they are not borne by members).

Description of the funding arrangements

Pooled employers are required to pay standard employer contributions and additional lump sum contributions to the fund.

The standard employer contributions were determined using the new entrant rate method, under which a contribution rate sufficient to fund the total benefits over the working lifetime of a typical new entrant is calculated. The current standard employer contribution rates are:

Division B	1.9 times employee contributions
Division C	2.5% salaries
Division D	1.64 times employee contributions

The additional lump sum contribution for each pooled employer is a share of the total additional contributions of \$40m per annum from 1 July 2018 to 30 June 2021, apportioned according to each employer's share of the accrued liabilities as at 30 June 2018. These lump sum contributions are used to fund the deficit of assets to accrued liabilities as at 30 June 2018.

The adequacy of contributions is assessed at each triennial actuarial investigation and monitored annually between triennials.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 18. Contingencies and other liabilities/assets not recognised (continued)

LIABILITIES NOT RECOGNISED (continued):

1. Guarantees (continued)

(i) Defined benefit plans (continued)

Description of the extent to which Council can be liable to the plan for other Council's obligations under the terms and conditions of the multi-employer plan.

As stated above, each sponsoring employer (Council) is exposed to the actuarial risks associated with current and former employees of other sponsoring employers and hence shares in the associated gains and losses.

However, there is no relief under the fund's trust deed for employers to walk away from their defined benefit obligations. Under limited circumstances, an employer may withdraw from the plan when there are no active members, on full payment of outstanding additional contributions. There is no provision for allocation of any surplus which may be present at the date of withdrawal of the Council.

There are no specific provisions under the fund's trust deed dealing with deficits or surplus on wind-up.

The amount of employer contributions to the defined benefit section of the Scheme and recognised as an expense for the year ending 30 June 2019 was \$1.033m. The last valuation of the Scheme was performed by Mr Richard Boyfield (FIAA) on 31/12/2018, and covers the year ended 30 June 2019.

The amount of additional contributions included in the total employer contribution advised above is \$0.58m. Council's expected contribution to the plan for the next annual reporting period is \$1.04m.

The estimated employer reserves financial position for the pooled employees at 30 June 2019 is:

Employer reserves only*	\$ millions	Asset Coverage
Assets	1,798.7	
Past Service Liabilities	1,784.2	100.8%
Vested Benefits	1,792.0	100.4%

*excluding member accounts and reserves in both assets and liabilities.

The share of this deficit that is broadly attributed to Council is estimated to be in the order of \$1,041,459.64 as at 30 June 2019.

Council's share of that deficiency cannot be accurately calculated as the Scheme is a mutual arrangement where assets and liabilities are pooled together for all member councils. For this reason, no liability for the deficiency has been recognised in Council's accounts. Council has a possible obligation that may arise should the Scheme require immediate payment to correct the deficiency.

The key economic long-term assumptions used to calculate the present value of accrued benefits are:

Investment return	5.75% per annum
Salary inflation*	3.5% per annum
Increase in CPI	2.5% per annum

*Plus promotional increases

The contribution requirements may vary from the current rates if the overall sub-group experience is not in line with the actuarial assumptions in determining the funding program; however, any adjustment to the funding program would be the same for all sponsoring employers in the pooled employers.

Bayside Council

Notes to the Financial Statements for the year ended 30 June 2019

Note 18. Contingencies and other liabilities/assets not recognised (continued)

LIABILITIES NOT RECOGNISED (continued):

1. Guarantees (continued)

(ii) CivicRisk Metro (Formerly Metro Pool)

Council is a member of CivicRisk Metro, a joint venture of seven local councils in New South Wales.

It was established in 1990 to allow sharing of public liability and professional indemnity risks of its member councils.

Membership includes the potential to share in either the net assets or liabilities of the fund depending on its past performance. Council's share of the net assets or liabilities reflects Council's contributions to the pool and the result of insurance claims within each of the fund years.

The future realisation and finalisation of claims incurred but not reported to 30/6 this year may result in future liabilities or benefits as a result of past events that Council will be required to fund or share in respectively.

(iii) CivicRisk Mutual (Formerly United Independent Pools (UIP))

Council is a member of CivicRisk Mutual, a joint venture, incorporated in July 2005 by CivicRisk West (formerly West Pool) and CivicRisk Metro (formerly Metro Pool).

CivicRisk Mutual "pools" the Industrial Special Risk, commercial motor property damage, Councillors', Directors' and Officers'/Statutory Liability and Fidelity Guarantee/Crime/Cyber risks of its 17 member Councils. It also undertakes various other activities, including running risk management forums and the bulk purchase of certain other insurances.

Membership includes the potential to share in either the net assets or liabilities of the fund depending on its past performance. Council's share of the net assets or liabilities reflects Council's contributions to the pool and the result of insurance claims within each of the fund years.

The future realisation and finalisation of claims incurred but not reported to 30/6 this year may result in future liabilities or benefits as a result of past events that Council will be required to fund or share in respectively.

(iv) StateCover Limited

Council is a member of StateCover Mutual Limited and holds a partly paid share in the entity.

StateCover is a company providing workers compensation insurance cover to the NSW local government industry and specifically Council.

Council has a contingent liability to contribute further equity in the event of the erosion of the company's capital base as a result of the company's past performance and/or claims experience or as a result of any increased prudential requirements from APRA.

These future equity contributions would be required to maintain the company's minimum level of net assets in accordance with its licence requirements.

(v) Other guarantees

Council has a bank guarantee of \$400k related to its discontinued Airport Business Unit and is seeking its release.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 18. Contingencies and other liabilities/assets not recognised (continued)

LIABILITIES NOT RECOGNISED (continued):

2. Other liabilities

(i) Remediation

The Council as part of past Council operations may have remediation liabilities. While some provision has been made in the accounts for this, there is the potential for further exposure to losses not already provided for.

(ii) Third party claims

The Council is involved from time to time in various claims incidental to the ordinary course of business including claims for damages relating to its services.

Council believes that it is appropriately covered for all claims through its insurance coverage and does not expect any material liabilities to eventuate.

(iii) S94 Plans

Council levies section 94/94A contributions upon various development across the Council area through the required contribution plans.

As part of these plans, Council has received funds for which it will be required to expend the monies in accordance with those plans.

As well, these plans indicate proposed future expenditure to be undertaken by Council, which will be funded by making levies and receipting funds in future years or where a shortfall exists by the use of Council's general funds.

These future expenses do not yet qualify as liabilities as of the reporting date, but represent Council's intention to spend funds in the manner and timing set out in those plans.

(iv) Potential land acquisitions due to planning restrictions imposed by Council

Council has classified a number of privately owned land parcels as local open space or bushland.

As a result, where notified in writing by the various owners, Council will be required to purchase these land parcels.

At reporting date, reliable estimates as to the value of any potential liability (and subsequent land asset) from such potential acquisitions has not been possible.

(v) ICAC investigation Operation Ricco

ICAC's investigation of allegations of fraud and corruption identified significant weaknesses in the former City of Botany Bay Council's internal controls. The systematic nature of the breakdown in governance may result in liabilities relating to past decisions or actions which are unknown at reporting date.

There is also potential future expenses relating to the legal recovery actions which may not be fully recoverable.

page 60

Bayside Council**Notes to the Financial Statements**

for the year ended 30 June 2019

Note 18. Contingencies and other liabilities/assets not recognised (continued)

ASSETS NOT RECOGNISED:**(i) Legal recoveries of fraud**

Legal recovery actions are being progressed against persons for recovery of monies identified by the ICAC Operation Ricco and by Council as fraud against the former City of Botany Bay Council. Outcomes cannot be reliably measured at time of reporting resulting in a contingent asset relating to legal recoveries and insurance settlements.

(ii) Legal actions

Council has provided for some legal settlements but is currently defending these legal claims which are potential contingent assets if successful.

(iii) Land under roads

As permitted under AASB 1051, Council has elected not to bring to account land under roads that it owned or controlled up to and including 30/6/08.

(iv) Infringement notices/fines

Fines and penalty income, the result of Council issuing infringement notices is followed up and collected by the Infringement Processing Bureau.

Council's revenue recognition policy for such income is to account for it as revenue on receipt.

Accordingly, at year end, there is a potential asset due to Council representing issued but unpaid infringement notices.

Due to the limited information available on the status, value and duration of outstanding notices, Council is unable to determine the value of outstanding income.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 19. Financial risk management

\$ '000

Risk management

Council's activities expose it to a variety of financial risks including **(1)** price risk, **(2)** credit risk, **(3)** liquidity risk and **(4)** interest rate risk.

The Council's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Council.

Council does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by Council's finance section under policies approved by the Council.

A comparison by category of the carrying amounts and fair values of Council's financial assets and financial liabilities recognised in the financial statements is presented below.

	Carrying value		Fair value	
	2019	2018	2019	2018
Financial assets				
Measured at amortised cost				
Cash and cash equivalents	57,610	54,171	57,610	54,171
Receivables	15,903	17,949	15,903	17,949
Investments				
– 'Financial assets at amortised cost' / 'held to maturity' (2018)	318,000	282,418	318,000	282,418
Fair value through other comprehensive income				
Investments				
– 'Financial assets at fair value through other comprehensive income' / 'available for sale financial assets' (2018)	11	–	11	–
Fair value through profit and loss				
Investments				
– 'Designated at fair value on initial recognition'	45,597	58,602	45,597	58,602
Total financial assets	437,121	413,140	437,121	413,140
Financial liabilities				
Measured at amortised cost				
Payables	26,545	32,019	26,545	32,019
Loans/advances	3,869	4,933	3,869	4,933
Total financial liabilities	30,414	36,952	30,414	36,952

Fair value is determined as follows:

- **Cash** and **cash equivalents**, **receivables**, **payables** – are estimated to be the carrying value that approximates market value.
- **Borrowings** and **held-to-maturity** investments – are based upon estimated future cash flows discounted by the current mkt interest rates applicable to assets and liabilities with similar risk profiles, unless quoted market prices are available.
- Financial assets classified (i) '**at fair value through profit and loss**' or (ii) '**available-for-sale**' – are based upon quoted market prices (in active markets for identical investments) at the reporting date or independent valuation.

page 62

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 19. Financial risk management (continued)

\$ '000

Council's objective is to maximise its return on cash and investments whilst maintaining an adequate level of liquidity and preserving capital.

Council's finance area manages the cash and Investments portfolio with the assistance of independent advisors.

Council has an investment policy which complies with the *Local Government Act 1993* and Ministerial Investment Order 625. This policy is regularly reviewed by Council and its staff and a monthly Investment report is provided to Council setting out the make-up and performance of the portfolio as required by Local Government regulations.

The risks associated with the instruments held are:

- **Price risk** – the risk that the capital value of investments may fluctuate due to changes in market prices, whether there changes are caused by factors specific to individual financial instruments or their issuers or are caused by factors affecting similar instruments traded in a market.
- **Interest rate risk** – the risk that movements in interest rates could affect returns and income.
- **Liquidity risk** – the risk that Council will not be able to pay its debts as and when they fall due
- **Credit risk** – the risk that the investment counterparty will not complete their obligations particular to a financial instrument, resulting in a financial loss to Council – be it of a capital or income nature.

Council manages these risks (amongst other measures) by diversifying its portfolio and only purchasing investments with high credit ratings or capital guarantees.

(a) Market risk – price risk and interest rate risk

The impact on result for the year and equity of a reasonably possible movement in the price of investments held and interest rates is shown below. The reasonably possible movements were determined based on historical movements and economic conditions in place at the reporting date.

	Increase of values/rates		Decrease of values/rates	
	Profit	Equity	Profit	Equity
2019				
Possible impact of a 10% movement in market values	4,560	4,560	(4,560)	(4,560)
Possible impact of a 1% movement in interest rates	31,800	31,800	(31,800)	(31,800)
2018				
Possible impact of a 10% movement in market values	5,860	5,860	(5,860)	(5,860)
Possible impact of a 1% movement in interest rates	2,824	2,824	(2,824)	(2,824)

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 19. Financial risk management (continued)

\$ '000

(b) Credit risk

Council's major receivables comprise (i) rates and annual charges and (ii) user charges and fees.

Council manages the credit risk associated with these receivables by monitoring outstanding debt and employing stringent debt recovery procedures. Council also encourages ratepayers to pay their rates by the due date through incentives.

The credit risk for liquid funds and other short-term financial assets is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

There are no significant concentrations of credit risk, other than Council has significant credit risk exposures in its local area given the nature of the business.

The level of outstanding receivables is monitored by finance and monitored for acceptable collection performance. The balances of receivables that remain within initial trade terms (as detailed in the table) are considered to be of high credit quality.

The maximum exposure to credit risk at the reporting date is the carrying amount of each class of receivable in the financial statements.

Council makes suitable provision for doubtful receivables as required and carries out credit checks on most non-rate debtors.

There are no material receivables that have been subjected to a re-negotiation of repayment terms.

Credit risk profile

Receivables – rates and annual charges

Credit risk on rates and annual charges is minimised by the ability of Council to secure a charge over the land relating to the debts – that is, the land can be sold to recover the debt. Council is also able to charge interest on overdue rates and annual charges at higher than market rates which further encourages the payment of debt.

\$ '000	Not yet overdue	< 1 year overdue	1 – 2 years overdue	2 – 5 years overdue	> 5 years overdue	Total
2019						
Gross carrying amount	44	5,555	1,193	1,211	518	8,521
2018						
Gross carrying amount	45	5,605	1,692	586	473	8,401

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 19. Financial risk management (continued)

\$ '000

(b) Credit risk (continued)

Receivables – non-rates and annual charges

Council applies the simplified approach for non-rates and annual charges debtors to provide for expected credit losses prescribed by AASB 9, which permits the use of the lifetime expected loss provision. To measure the expected credit losses, non-rates and annual charges debtors have been grouped based on shared credit risk characteristics and the days past due.

The loss allowance provision as at 30 June 2019 is determined as follows. The expected credit losses incorporate forward-looking information.

\$ '000	Not yet overdue	0 – 30 days overdue	31 – 60 days overdue	61 – 90 days overdue	> 91 days overdue	Total
2019						
Gross carrying amount	6,581	125	53	101	1,673	8,533
2018						
Gross carrying amount	7,127	659	10	429	2,391	10,616

Notes to the Financial Statements
for the year ended 30 June 2019

Note 19. Financial risk management (continued)

\$ '000

(c) Liquidity risk

Payables and borrowings are both subject to liquidity risk – the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due.

Council manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer.

Payment terms can (in extenuating circumstances) also be extended and overdraft facilities utilised as required.

Borrowings are also subject to interest rate risk – the risk that movements in interest rates could adversely affect funding costs and debt servicing requirements. Council manages this risk through diversification of borrowing types, maturities and interest rate structures. The finance team regularly reviews interest rate movements to determine if it would be advantageous to refinance or renegotiate part or all of the loan portfolio.

The timing of cash flows presented in the table below to settle financial liabilities reflects the earliest contractual settlement dates. The timing of expected outflows is not expected to be materially different from contracted cashflows.

The amounts disclosed in the table are the undiscounted contracted cash flows and therefore the balances in the table may not equal the balances in the statement of financial position due to the effect of discounting.

\$ '000	Weighted average interest rate	Subject to no maturity	≤ 1 Year	payable in:		Total cash outflows	Actual carrying values
				1 – 5 Years	> 5 Years		
2019							
Trade/other payables	0.00%	16,707	9,838	-	-	26,545	26,545
Loans and advances	4.53%	-	301	2,045	1,523	3,869	3,869
Total financial liabilities		16,707	10,139	2,045	1,523	30,414	30,414
2018							
Trade/other payables	0.00%	18,549	13,470	-	-	32,019	32,019
Loans and advances	4.36%	-	132	2,348	2,453	4,933	4,933

Note 20. Material budget variations

\$ '000

Council's original financial budget for 18/19 was adopted by the Council on 27 June 2018 and is not required to be audited.

While the Income Statement included in this General Purpose Financial Statements must disclose the original budget adopted by Council, the *Local Government Act 1993* requires Council to review its financial budget on a quarterly basis, so that it is able to manage the various variations between actuals versus budget that invariably occur throughout the year.

This note sets out the details of **material variations** between Council's original budget and its actual results for the year as per the Income Statement – even though such variations may have been adjusted for during each quarterly budget review.

Material variations represent those variances between the original budget figure and the actual result that amount to **10%** or more.

Variation Key: **F** = Favourable budget variation, **U** = Unfavourable budget variation

\$ '000	2019 Budget	2019 Actual	2019 Variance*	
REVENUES				
Rates and annual charges	115,173	116,974	1,801	2% F
User charges and fees	18,100	16,572	(1,528)	(8%) U
Discontinuation of the Airport Business Unit was not included in original budget forecast.				
Interest and investment revenue	8,397	10,891	2,494	30% F
Original forecast was conservative in terms of the interest rate applicable to investments, combined with process and procedure improvements in cash management in conjunction with a higher than estimated average investment portfolio.				
Other revenues	14,130	16,438	2,308	16% F
Additional parking revenue, ex-gratia rates and recoveries of funds not included in budget forecast.				
Operating grants and contributions	7,611	9,938	2,327	31% F
Payment of Financial Assistance Grant in advance.				
Capital grants and contributions	38,204	35,227	(2,977)	(8%) U
Joint ventures and associates - net profits	–	519	519	0% F
Council does not budget for movements in its joint ventures.				

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 20. Material budget variations (continued)

\$ '000	2019 Budget	2019 Actual	2019 Variance*	
EXPENSES				
Employee benefits and on-costs	76,334	68,434	7,900	10% F
A number of positions were vacant during the year, with essential positions being covered by agency staff, which resulted in the actual employee costs being below budget. This is offset with agency costs being included in materials and contracts.				
Borrowing costs	217	206	11	5% F
Materials and contracts	44,287	50,504	(6,217)	(14%) U
Utilisation of agency staff and contractors to cover vacancies, offset with employee cost savings				
Depreciation and amortisation	22,866	24,886	(2,020)	(9%) U
Other expenses	16,310	18,952	(2,642)	(16%) U
Electricity and heating costs above budget estimate. Council's investment in upgrade of street lighting program was delayed by the provider and this resulted in higher street lighting charges than forecasted.				
STATEMENT OF CASH FLOWS				
Cash flows from operating activities	64,468	62,119	(2,349)	(3.6%) U
Cash flows from investing activities	(81,029)	(57,601)	23,428	(28.9%) F
There were unforeseen delays in a number of capital projects which resulted in less capital expenditure than forecast and changes to internal investment process resulted in less turnover of investment portfolio.				
Cash flows from financing activities	(1,079)	(1,079)	–	0.0% F

Note 21. Discontinued operations

Discontinued operations

Council ceased to operate the Airport Business Unit from 30/09/2018. □

This operation provided maintenance services for Sydney Airport and the majority of operating staff transitioned to the new operator or were absorbed in Council's general business operations. There were no sale proceeds for this operation as it was a service delivery operation.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 22. Fair value measurement

\$ '000

The Council measures the following asset and liability classes at fair value on a recurring basis:

- Infrastructure, property, plant and equipment
- Financial assets and liabilities

The fair value of assets and liabilities must be estimated in accordance with various accounting standards for either recognition and measurement requirements or for disclosure purposes.

AASB 13 Fair Value Measurement requires all assets and liabilities measured at fair value to be assigned to a 'level' in the fair value hierarchy as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(1) The following table presents all assets and liabilities that have been measured and recognised at fair values:

		Fair value measurement hierarchy			
2019		Level 1	Level 2	Level 3	Total
	Date of latest valuation	Quoted prices in active mkts	Significant observable inputs	Significant unobservable inputs	
Recurring fair value measurements					
Financial assets					
Investments					
– ‘Designated at fair value on initial recognition’	30/06/19	–	45,597	–	45,597

(2) Transfers between level 1 and level 2 fair value hierarchies

During the year, there were no transfers between level 1 and level 2 fair value hierarchies for recurring fair value measurements.

Bayside Council

Notes to the Financial Statements for the year ended 30 June 2019

Note 22. Fair value measurement (continued)

3) Valuation techniques used to derive level 2 and level 3 fair values

Where Council is unable to derive fair valuations using quoted market prices of identical assets (i.e. level 1 inputs), Council instead utilises a spread of both observable inputs (level 2 inputs) and unobservable inputs (level 3 inputs).

The fair valuation techniques Council has employed while utilising Level 1, Level 2 and level 3 inputs are as follows:

Level 1 measurements

Financial assets

The Council's financial assets relates to its investments in short term deposits, held to maturity and floating rate notes linked to the relevant investment period's (mid) Bank Bill Swap rates (BBSW). Council receives indicative market valuation advice from the investment banks. The indicative valuations are based upon recent comparative market based evidence. The information included under 6(b) is considered sufficient to meet the Fair Value disclosures requirements hence additional information is not included under this note.

Level 2 measurements

Financial liabilities

Interest free loans

The Council's financial liabilities relate to interest free loans acquired in accordance with Local Government guidelines to fund infrastructure projects. The fair value of the financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Council for similar instruments, therefore placing the financial liabilities assets in Level 2. Valuation techniques remained the same for this reporting period.

Infrastructure, property, plant and equipment (IPPE)

Work in Progress (IPPE)

The Work in progress relating to IPPE assets are valued at cost in Council's books and reported at Fair Value in the notes due to the nature of the items. The cost of these assets are based on current invoices and contracts, which are based on observable inputs therefore placing the IPPE WIP in Level 2.

Operational Land

The Council engages external, independent and qualified valuers to determine the fair value of the Council's Operational Land.

The fair value of Operational Land has been determined by referencing it to current prices in an active market for similar properties. Where such information is not available, current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences are considered. Appropriate adjustments are also made for the inherent features of the property such as fire-prone, flood zonings and usability of the land.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 22. Fair value measurement (continued)

Operational land assets are categorised as Level 2 as determined by the valuation report provided by APV Valuers & Asset Management. Valuation techniques remained the same for this reporting period.

Operational land was last revalued at 10 September 2016.

Non-current assets classified as 'held for sale'

The Council's non-current asset held for sale is an operational land that is fair valued by APV Valuers and Asset Management as at 10 September 2016. Contracts for exchange is being negotiated. Asset held for sale will be therefore revalued to market value/contract value on conclusion of the sales agreement.

Non-current assets held for sale is categorised as Level 2 as determined by the valuation report provided by APV Valuers & Asset Management. Valuation techniques remained the same for this reporting period.

Level 3 measurements

Plant & Equipment, Office Equipment, and Furniture & Fittings

This asset category includes:

Plant & Equipment – Motor Vehicles, trucks, mowers
Office Equipment – Computer equipment
Furniture & Fittings – Chairs, desks, cabinets, display systems.

These assets are valued at cost in Council's books and reported at Fair Value in the notes due to the nature of the items. The cost of these assets are based on current invoices and contracts, which are based on observable inputs, however the remaining useful life and residual value is based on internal factors which are unobservable in the market therefore placing these assets in Level 3. Valuation techniques remained the same for this reporting period.

Library Books

This asset category comprises of assets such as library books, journals, magazines, CDs and DVDs.

The library books are reported at Fair Value in the notes however, due to the nature of these items they are valued at cost. There are no major variances between the fair value and carrying amount of these assets. The cost of these assets are based on current invoices and contracts, which are based on observable inputs, however the remaining useful life is based on internal factors which are unobservable in the market making it a level 3 asset. Valuation techniques remain the same for this reporting period.

Buildings – Specialised & Non-Specialised

The Council engages external, independent and qualified valuers to determine the fair value of the Council's buildings. Buildings were last revalued on 10 September 2016 and the fair values were determined by APV Valuers & Asset Management.

Gross Value of each building, which is obtained by applying a unit rate to a structure or a square metre rate to a building, based on its current replacement cost, which is the lowest cost of replacing the economic benefits of the existing asset using modern technology. The valuation aspects are generally, but not limited to the location, size, condition, style and utility of the asset. Replacement cost, asset condition, remaining useful life and building components are some of the inputs used in fair value determination. The key unobservable input

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 22. Fair value measurement (continued)

being the rate square metre has been benchmarked to construction costs of similar properties across the industry.

This asset class is categorised as Level 3 as some of the above mentioned inputs used in the valuation of these assets require significant professional judgement and are therefore unobservable. Valuation techniques remained the same for this reporting period.

Further details relating to the rate per square metre has been provided below.

Community Land

The Council engages the Valuer General of New South Wales to determine the fair value of the Council's Community Land.

The fair value for Community Land has been determined using an Unimproved Capital Value, derived from the Valuer General's valuation performed for rating purposes, and applying to the total area. Given the nature of Community land, comparable sales data is generally not available. As the Valuer General's valuation considers land in all zoning, average unit derived from Valuer General's valuation is considered the most practicable approach to valuing Community Land.

This assets class is categorised as Level 3 as some of the inputs mentioned above require significant professional judgement and are therefore unobservable. Valuation techniques remained the same for this reporting period.

Community land was last revalued at 1 July 2016.

Infrastructure assets

The Council engages external, independent and qualified valuers to determine the fair value of the Council's Infrastructure assets. All infrastructure assets were last revalued on 10 September 2016 and the fair values were determined by APV Valuers & Asset Management.

The key unobservable input to the valuation is the rate per square metre, for which, further details have been provided below.

Some infrastructure assets that are not valued by APV Valuers are performed internally by the Council's internal engineering team. The gross value of the infrastructure assets are determined by unit rate to total volume which is normally square metres, cubic metres or lineal metres.

The unit rates, which is a key unobservable input, is determined using rates stipulated in contracts with third party suppliers via tenders, internal service providers and industry publications.

Roads

The system adopted has a hierarchical structure in which all Roads are identified by name and number. Each road was then subdivided into a number of sections based on length, geometry and change of structure or traffic. Some roads may have only one section. The components within the road sections are as follows.

- ❖ Road Pavement
 - Pavement Structure
 - Road Wearing Course

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 22. Fair value measurement (continued)

-
- ❖ Bridges & Culverts
 - ❖ Footpaths
 - ❖ Kerb & Gutter
 - ❖ Bollards
 - ❖ Retaining Walls
 - ❖ Fences & Railings
 - ❖ Seats
 - ❖ Traffic Facilities
 - ❖ Carpark
 - ❖ Cycleway Path
 - Cycleway markings
 - ❖ Street Furniture
 - Stainless steel bin covers
 - Tree guards
 - Planter box

Road Pavements, Footpaths, Cycleway and Kerb & Gutter were measured along the centre line and their corresponding width and condition were recorded. Similarly Traffic Facilities, Retaining Wall, Car park measured and determined area in square metres. Fence and Railing measured in linear metres. Street Furniture are considered as single items and valued as such.

Kerb and gutter assets are valued using condition and age based methodology. Kerb and gutter assets are categorised by their construction material and by the kerb type and are not componentised. Unit rates are based on other council valuations and previous Rockdale valuation. A common unit rate of \$180 per lineal metre has been applied across all material and kerb types.

Road pavement structure assets are valued using condition and age based methodology. Road pavements have been assigned a unit rate of \$75 per square metre. Pavement replacement costs are based on renewal practice consisting of removing approximately 50% of existing pavement layer and replacing it with structural asphalt. Unit rates are based primarily on recent construction rates used in Rockdale pavement renewal contracts. Unit rate has been expressed as a weighted average for all roads based on the proportion of local and regional roads which typically have different standards of pavement reconstruction to reflect the different usage. The methodology of determining the area of wearing course has changed since the 2010 valuation. This has resulted in an increase in wearing course by 19%.

Road wearing course assets are valued using condition and age based methodology. Road wearing surfaces have been assigned a unit rate of \$27 per square metre. Unit rates are based primarily on recent construction rates used in Rockdale pavement surfacing contracts. Unit rate has been expressed as a weighted average for all roads based on the proportion of local and regional roads, which typically have different requirements for wearing surface to reflect different usage. The methodology of determining the area of wearing course has changed since 2010 asset valuation. This has resulted in an increase in wearing course area by approximately 9%.

Bayside Council

Notes to the Financial Statements

for the year ended 30 June 2019

Note 22. Fair value measurement (continued)

This assets class is categorised as Level 3 as some of the inputs mentioned above require significant professional judgement and are therefore unobservable.

Bridges

Bridges and culverts are valued using condition and age based methodology. Road bridges are not categorised whilst culverts are categorised as to type (box culverts and pipe culverts). Bridge and culvert renewals will typically be a full rebuild rather than replacement of individual components, therefore an overall replacement rate is appropriate. Bridge unit rates are \$3,969 per square metre of deck area. Culvert unit rates are \$2,028 per square metre of footprint (plan) area. Bridge unit rates is based on breakdown provided by other council valuations and compared to Rawlinson's Australian Construction Handbook overall rate information. Culvert unit rates is based on per metre rates from Rawlinson's Australian Construction Handbook and converted to an equivalent footprint plan area rate including allowances for ancillary work.

Footpaths

Footpath assets are valued using condition and age based methodology. Footpaths are categorised by their construction material. Footpath assets are not componentised.

Unit rates are based on previous Rockdale valuation and other council valuations. Unit rates based on other council valuations and compared to Rawlinson's Australian Construction Handbook 2015. Unit rates for asphalt \$50 per square metre, concrete \$100 per square metre and pavers \$95 per square metre.

Stormwater Drainage

Similar to the roads asset, drainage asset system has a hierarchical structure in which all the drainage catchments have components such as pipes, pits, channels, culverts etc. In addition, Stormwater Quality Improvement Devices (SQID) such as Gross Pollution Traps, Trash racks, Litter baskets, Litter nets, Booms etc. are recorded. Pipes, channels and box culverts are measured in linear metres and pits as an item,

Stormwater drain assets have been valued using an age-based methodology.

Where applicable, actual costs for asset acquisition or work done are used to determine unit rates. When this information is not available local engineering knowledge and benchmark data contained in the NSW Reference Rates Manual (2014) has been applied.

This assets class is categorised as Level 3 as some of the inputs mentioned above require significant professional judgement and are therefore unobservable.

Land Under Roads

Land Under Roads identified as roads constructed post 30/6/2008 has been valued based on Municipal Average Land Rate discounted by 90%. Council has elected to only recognise land under roads for new roads constructed after 30/6/2008.

The Council uses Local Government Area rateable land values provided by the NSW Valuer-General to determine the fair value of the Council's Land Under Roads (LUR) assets.

The urban Average Rateable Value per hectare within each Local Government Area (LGA) is adjusted by an "open spaces ratio" to approximate fair value (unimproved and pre-subdivision land).

The urban Average Rateable Value by LGA is derived from data provided by the Valuer – General. Measurement of land area in situ under roads.

Bayside Council

Notes to the Financial Statements for the year ended 30 June 2019

Note 22. Fair value measurement (continued)

This assets class is categorised as Level 3 as some of the inputs mentioned above require significant professional judgement and are therefore unobservable.

Swimming Pools

Assets within this class are comprised of swimming pools and associated structures.

The valuation of the swimming pools using cost approach was conducted by APV Valuers and Asset Management on 10 September 2016. Significant unobservable inputs considered in the valuation of these assets are remaining useful life, pattern of consumption, dimensions, components, asset condition and residual value.

This asset class is categorised a Level 3 as some of the above-mentioned inputs used in the valuation of these assets require significant professional judgment and are therefore unobservable.

Intangible assets

Intangible assets are measured initially at cost and amortised on a systematic basis over their useful lives. After initial recognition, the Council measures an intangible asset at cost less accumulated amortisation and impairment losses. Significant unobservable inputs considered in the assessment these assets remaining useful life, pattern of consumption, technological obsolescence and thus residual value.

This asset class is categorised a Level 3 as some of the above-mentioned inputs used in the valuation of these assets require significant professional judgment and are therefore unobservable.

Open Space/Recreation Assets

Open space and recreational infrastructure assets are those that enables recreational, leisure and sporting opportunities at parks, reserves or sportsgrounds. This is a broad category and includes most infrastructure located in parks, reserves, sportsgrounds and sports facilities such as barbeques, barbeque shelters, bins, lighting, irrigation, electrical equipment, park furniture, park fixtures, retaining walls, landscape edging, bollards, fencing, signs, public art, playground equipment, fitness facilities, sports tracks, fields and courts.

The valuation of Open Space/Recreation Assets using a gross replacement value was conducted by Rapid Maps as at 30 June 2019. Significant unobservable inputs considered in the valuation of these assets are gross replacement value based on an appropriate unit rate, effective useful life, remaining useful life, and depreciated value.

This asset class is categorised a Level 3 as some of the above-mentioned inputs used in the valuation of these assets require significant professional judgment and are therefore unobservable.

Other Structures

Other Structures are those large and significant structures and shelters greater than 30m2 but not those already included within the Buildings Class.

The valuation of Other Structures using a gross replacement value was conducted by Rapid Maps as at 30 June 2019. Significant unobservable inputs considered in the valuation of these assets are gross replacement value based on an appropriate unit rate, effective useful life, remaining useful life, and depreciated value.

Bayside Council**Notes to the Financial Statements**
for the year ended 30 June 2019**Note 22. Fair value measurement** (continued)

This asset class is categorised a Level 3 as some of the above-mentioned inputs used in the valuation of these assets require significant professional judgment and are therefore unobservable.

Other Infrastructure Assets

Other Infrastructure assets include jetties, boat ramps, sea walls, viewing decks, boardwalks and retaining wall within Parks and Reserves.

The valuation of Other Infrastructure Assets using a gross replacement value was conducted by Rapid Maps as at 30 June 2019. Significant unobservable inputs considered in the valuation of these assets are gross replacement value based on an appropriate unit rate, effective useful life, remaining useful life, and depreciated value.

This asset class is categorised a Level 3 as some of the above-mentioned inputs used in the valuation of these assets require significant professional judgment and are therefore unobservable.

Note 24. Statement of developer contributions

\$ '000

Under the *Environmental Planning and Assessment Act 1979*, Council has significant obligations to provide Section 7.11 (contributions towards provision or improvement of amenities or services) infrastructure in new release areas.

It is possible that the funds contributed may be less than the cost of this infrastructure, requiring Council to borrow or use general revenue to fund the difference.

INDEPENDENT AUDITOR'S REPORT

Report on the general purpose financial statements

Bayside Council

To the Councillors of Bayside Council

Disclaimer of Opinion

I am required to audit the accompanying general purpose financial statements (the financial statements) of Bayside Council (the Council), which comprise the Statement by Councillors and Management, Income Statement and Statement of Comprehensive Income for the year ended 30 June 2019, the Statement of Financial Position as at 30 June 2019, the Statement of Changes in Equity and Statement of Cash Flows for the year then ended and Notes to the Financial Statements comprising a summary of significant accounting policies and other explanatory information.

I do not express an opinion on the accompanying financial statements of the Council. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of my report, I have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

My disclaimer of opinion should be read in conjunction with the rest of this report.

Basis for Disclaimer of Opinion

In previous years, significant breakdowns in administrative, financial and governance internal controls materially and pervasively impacted the reliability of the Council's financial reporting.

Impact on opening balances at 1 July 2018

Councillors and Management declared, in the Statement required by Councillors and Management under section 413(2)(c) of the *Local Government Act 1993*, they were unable to warrant the completeness and reliability of the financial statements for the year ended 30 June 2018. As a result, I disclaimed my opinion on the financial statements for the year then ended.

The disclaimer of opinion on the financial statements for the year ended 30 June 2018 affected my ability to obtain sufficient appropriate audit evidence on the opening balances at 1 July 2018. I was also unable to determine whether any adjustments were necessary in the opening balances for the 2018-19 financial year. This impacts items in the Income Statement, Statement of Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows, Note 2(a): Council functions/activities – financial information, Note 3: Income from continuing operations, Note 4: Expenses from continuing operations, Note 5: Gain or loss from the disposal, replacement and de-recognition of assets, Note 10(a): Infrastructure, property, plant and equipment, Note 13(c): Description of and movements in provisions, Note 15: Statement of cash flows – additional information, Note 20: Material budget variations, Note 22(4): Fair value measurements using significant unobservable inputs (level 3), Note 23: Related party transactions, Note 24: Statement of developer contributions and Note 25(a): Statement of performance measures – consolidated results.

Stormwater drainage assets

Council discloses \$84.5 million of stormwater drainage assets in Note 10(a): Infrastructure, property, plant and equipment. I was unable to obtain sufficient appropriate audit evidence to support the completeness and accuracy of stormwater drainage assets recorded in the financial statements as at 30 June 2019, or determine the impact on the net operating result or total comprehensive income for the year ended 30 June 2019.

The pervasiveness of these issues mean I cannot express an opinion on the accompanying financial statements for the year ended 30 June 2019.

The Councillor's Responsibilities for the Financial Statements

The Councillors are responsible for the preparation and fair presentation of the financial statements in accordance with Australian Accounting Standards and the Local Government Act 1993, and for such internal control as the Councillors determine is necessary to enable the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Councillors must assess the Council's ability to continue as a going concern unless the Council is dissolved or amalgamated by an Act of Parliament. The assessment must disclose, as applicable, matters related to going concern and the appropriateness of using the going concern basis of accounting.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to:

- obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error
- issue an Independent Auditor's Report including my opinion.

However, because of the matters described in the Basis for Disclaimer of Opinion section of my report, I was not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

I am independent of the Council in accordance with the requirements of the:

- Australian Auditing Standards
- Accounting Professional and Ethical Standards Board's APES 110 'Code of Ethics for Professional Accountants' (APES 110).

I have also fulfilled my other ethical responsibilities in accordance with APES 110.

Parliament further promotes independence by ensuring the Auditor-General and the Audit Office of New South Wales are not compromised in their roles by:

- providing that only Parliament, and not the executive government, can remove an Auditor-General
- mandating the Auditor-General as auditor of councils
- precluding the Auditor-General from providing non-audit services.

Aaron Green
Assistant Auditor-General

Delegate of the Auditor-General for New South Wales

16 January 2020

Our ref: D1928066/1689

16 January 2020

Dear Mayor

**Report on the Conduct of the Audit
for the year ended 30 June 2019
Bayside Council**

I have audited the general purpose financial statements of Bayside Council (the Council) for the year ended 30 June 2019 as required by section 415 of the *Local Government Act 1993* (the Act).

I issued a disclaimer of opinion on the Council's general purpose financial statements.

This Report on the Conduct of the Audit (the Report) for the Council is issued in accordance with section 417 of the Act. This Report should be read in conjunction with my audit opinion on the general purpose financial statements issued under section 417(2) of the Act.

SIGNIFICANT AUDIT ISSUES AND OBSERVATIONS

The following significant matters came to my attention during the audit:

- I disclaimed my opinion on the financial statements for the year ended 30 June 2018 which meant I was unable to obtain sufficient appropriate audit evidence on the opening balances at 1 July 2018. This impacts items in the Income Statement, Statement of Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows and related notes accompanying the financial statements for the year ended 30 June 2019.
- I was unable to obtain sufficient appropriate audit evidence to support the completeness and accuracy of stormwater drainage assets recorded in the financial statements.
- There was an inadequate system of internal controls to support accurate financial reporting and to mitigate the risk of fraud or error.
- Council did not maintain adequate accounting records as required by Section 412 of the *Local Government Act 1993*.

As a result, I was unable to obtain sufficient appropriate audit evidence to issue an opinion on the financial statements and have issued a disclaimer of opinion.

FINANCIAL INFORMATION AND PERFORMANCE RATIOS

I have not included commentary on Financial Information or Performance Ratios in this report for the reasons outlined above.

Other Matters

Legislative compliance

Council did not maintain adequate accounting records as required by Section 412 of the *Local Government Act 1993*. The Council's accounting records were not maintained in a manner and form that facilitated the preparation and the effective audit of the general purpose financial statements. Council staff were unable to provide all accounting records and information relevant to the audit.

page 2

Bayside Council

Special Schedule 2 – Permissible income for general rates (continued)
for the year ended 30 June 2020**Notes**

- (1) The notional general income will not reconcile with rate income in the financial statements in the corresponding year. The statements are reported on an accrual accounting basis which include amounts that relate to prior years' rates income.
- (2) Adjustments account for changes in the number of assessments and any increase or decrease in land value occurring during the year. The adjustments are called 'supplementary valuations' as defined in the Valuation of Land Act 1916.
- (3) The 'special variation percentage' is inclusive of the rate peg percentage and where applicable Crown land adjustment.
- (4) Valuation objections are unexpected changes in land values as a result of land owners successfully objecting to the land value issued by the Valuer-General. Councils can claim the value of the income lost due to valuation objections in any single year.
- (5) Unused catch-up amounts will be deducted if they are not caught up within 2 years. Usually councils will have a return (FDR) to administer this process.
- (6) Carry forward amounts which are in excess (an amount that exceeds the permissible income) require ministerial approval by order published in the NSW Government Gazette in accordance with section 512 of the Local Government Act 1993. The OLG will extract these amounts from Council's permissible income from general rates in the financial data return (FDR) to administer this process.

INDEPENDENT AUDITOR'S REPORT

Special Schedule - Permissible income for general rates

Bayside Council

To the Councillors of Bayside Council

Opinion

I have audited the accompanying Special Schedule – Permissible income for general rates (the Schedule) of Bayside Council (the Council) for the year ending 30 June 2020.

In my opinion, the Schedule is prepared, in all material respects in accordance with the requirements of the Local Government Code of Accounting Practice and Financial Reporting – update number 27 (LG Code), and is in accordance with the books and records of the Council.

My opinion should be read in conjunction with the rest of this report.

Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under the standards are described in the 'Auditor's Responsibilities for the Audit of the Schedule' section of my report.

I am independent of the Council in accordance with the requirements of the:

- Australian Auditing Standards
- Accounting Professional and Ethical Standards Board's APES 110 'Code of Ethics for Professional Accountants' (APES 110).

I have fulfilled my other ethical responsibilities in accordance with APES 110.

Parliament promotes independence by ensuring the Auditor-General and the Audit Office of New South Wales are not compromised in their roles by:

- providing that only Parliament, and not the executive government, can remove an Auditor-General
- mandating the Auditor-General as auditor of councils
- precluding the Auditor-General from providing non-audit services.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Emphasis of Matter - Basis of Accounting

Without modifying my opinion, I draw attention to the special purpose framework used to prepare the Schedule. The Schedule has been prepared for the purpose of fulfilling the Council's reporting obligations under the LG Code. As a result, the Schedule may not be suitable for another purpose.

Other Matter

Without modifying my opinion, I draw attention to the audit of the general purpose financial report for Bayside Council for the year ended 30 June 2019 which was disclaimed on the following basis:

In previous years, significant breakdowns in administrative, financial and governance internal controls materially and pervasively impacted the reliability of the Council's financial reporting.

Impact on opening balances at 1 July 2018

Councillors and Management declared they were unable to warrant the completeness and reliability of the financial statements for the year ended 30 June 2018. As a result, I disclaimed my opinion on the financial statements for the year then ended.

The disclaimer of opinion on the financial statements for the year ended 30 June 2018 affected my ability to obtain sufficient appropriate audit evidence on the opening balances at 1 July 2018. I was also unable to determine whether any adjustments were necessary in the opening balances for the 2018–19 financial year. This impacts items in the Income Statement, Statement of Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows.

Stormwater drainage assets

Council discloses \$84.5 million of stormwater drainage assets in Note 10(a): Infrastructure, property, plant and equipment. I was unable to obtain sufficient appropriate audit evidence to support the completeness and accuracy of stormwater drainage assets recorded in the financial statements as at 30 June 2019, or determine the impact on the net operating result or total comprehensive income for the year ended 30 June 2019.

The pervasiveness of these issues meant I could not express an opinion on the financial statements of Council for the year ended 30 June 2019."

Notwithstanding, the amounts disclosed in the accompanying Statement are, in all material respects, based on and in agreement with proper accounts and records.

Other Information

The Council's annual report for the year ended 30 June 2019 includes other information in addition to the Schedule and my Independent Auditor's Report thereon. The Councillors are responsible for the other information. At the date of this Independent Auditor's Report, the other information I have received comprise the general purpose financial statements.

My opinion on the Schedule does not cover the other information. Accordingly, I do not express any form of assurance conclusion on the other information. However, as required by the *Local Government Act 1993*, I have separately expressed an opinion on the general purpose financial statements.

In connection with my audit of the Schedule, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Schedule or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude there is a material misstatement of the other information, I must report that fact.

I have nothing to report in this regard.

The Councillors' Responsibilities for the Schedule

The Councillors are responsible for the preparation of the Schedule in accordance with the LG Code. The Councillors' responsibility also includes such internal control as the Councillors determine is necessary to enable the preparation of the Schedule that is free from material misstatement, whether due to fraud or error.

In preparing the Schedule, the Councillors are responsible for assessing the Council's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless it is not appropriate to do so.

Auditor's Responsibilities for the Audit of the Schedule

My objectives are to:

- obtain reasonable assurance whether the Schedule as a whole is free from material misstatement, whether due to fraud or error
- issue an Independent Auditor's Report including my opinion.

Reasonable assurance is a high level of assurance, but does not guarantee an audit conducted in accordance with Australian Auditing Standards will always detect material misstatements. Misstatements can arise from fraud or error. Misstatements are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions users take based on the Schedule.

A description of my responsibilities for the audit of the Schedule is located at the Auditing and Assurance Standards Board website at: www.auasb.gov.au/auditors_responsibilities/ar8.pdf. The description forms part of my auditor's report.

My opinion does not provide assurance:

- that the Council carried out its activities effectively, efficiently and economically
- about the security and controls over the electronic publication of the audited Schedule on any website where it may be presented
- about any other information which may have been hyperlinked to/from the Schedule.
