

# Complying Development Certificate Checklist

Document Number: 20/157323 / TRIM SF20/3529

[In addition to Council's application form OR if submitting your application via the NSW Planning Portal, you must complete the relevant sections of this checklist and attach to your application.

It is recommended that applicants should obtain a planning certificate issued under s10.7 of the *Environmental Planning and Assessment Act 1979* from Council.

All plans and documents must be provided in accordance with Council's Electronic Lodgement Guidelines.

Please note that an incomplete form and insufficient associated documents may result in rejection of your application, and require re-submission of the application.]

## Information for the Applicant

Once completed, this application form may be submitted to Council for determination. Please note:

- A single application for a CDC may be made for development comprising the concurrent construction of new single storey or two storey dwelling houses if each is to be erected on existing adjoining lots.
- If the certifying authority issues a CDC, the Applicant (or a subsequent owner of the land on which the development is proposed to be carried out) has permission to carry out the development without the need to obtain further development consent.

**However**, depending upon factors such as the type of development, the location of the development and whether there will be external work or activities involved (eg. road opening, use of footpath areas) there may still be a need to obtain other approvals in order for the work involved to be performed. A list of the possible additional approvals that may be required can be obtained from the Department of Planning & Environment at [www.planning.nsw.gov.au](http://www.planning.nsw.gov.au). In order to avoid potential delays in commencing any work, Applicants should ascertain whether other approvals will be needed, and if so, the stage at which they will be required.

# Complying Development Certificate Checklist

Document Number: 20/157323 / TRIM SF20/3529

[In addition to Council's application form OR if submitting your application via the NSW Planning Portal, you must complete the relevant sections of this checklist and attach to your application.

It is recommended that applicants should obtain a planning certificate issued under s10.7 of the *Environmental Planning and Assessment Act 1979* from Council.

All plans and documents must be provided in accordance with Council's Electronic Lodgement Guidelines.

Please note that an incomplete form and insufficient associated documents may result in rejection of your application, and require re-submission of the application.]

## Information for the Applicant

Once completed, this application form may be submitted to Council for determination. Please note:

- A single application for a CDC may be made for development comprising the concurrent construction of new single storey or two storey dwelling houses if each is to be erected on existing adjoining lots.
- If the certifying authority issues a CDC, the Applicant (or a subsequent owner of the land on which the development is proposed to be carried out) has permission to carry out the development without the need to obtain further development consent.

**However**, depending upon factors such as the type of development, the location of the development and whether there will be external work or activities involved (eg. road opening, use of footpath areas) there may still be a need to obtain other approvals in order for the work involved to be performed. A list of the possible additional approvals that may be required can be obtained from the Department of Planning & Environment at [www.planning.nsw.gov.au](http://www.planning.nsw.gov.au). In order to avoid potential delays in commencing any work, Applicants should ascertain whether other approvals will be needed, and if so, the stage at which they will be required.

# Complying Development Certificate Checklist

Document Number: 20/157323 / TRIM SF20/3529

[In addition to Council's application form OR if submitting your application via the NSW Planning Portal, you must complete the relevant sections of this checklist and attach to your application.

It is recommended that applicants should obtain a planning certificate issued under s10.7 of the *Environmental Planning and Assessment Act 1979* from Council.

All plans and documents must be provided in accordance with Council's Electronic Lodgement Guidelines.

Please note that an incomplete form and insufficient associated documents may result in rejection of your application, and require re-submission of the application.]

## Information for the Applicant

Once completed, this application form may be submitted to Council for determination. Please note:

- A single application for a CDC may be made for development comprising the concurrent construction of new single storey or two storey dwelling houses if each is to be erected on existing adjoining lots.
- If the certifying authority issues a CDC, the Applicant (or a subsequent owner of the land on which the development is proposed to be carried out) has permission to carry out the development without the need to obtain further development consent.

**However**, depending upon factors such as the type of development, the location of the development and whether there will be external work or activities involved (eg. road opening, use of footpath areas) there may still be a need to obtain other approvals in order for the work involved to be performed. A list of the possible additional approvals that may be required can be obtained from the Department of Planning & Environment at [www.planning.nsw.gov.au](http://www.planning.nsw.gov.au). In order to avoid potential delays in commencing any work, Applicants should ascertain whether other approvals will be needed, and if so, the stage at which they will be required.

# Schedule - Complying Development Certificate Application

*This information will be compiled and sent to the Australian Bureau of Statistics*

All New Buildings – please complete the following	
Number of storeys (including underground floors)	
Current Gross Floor area of the development (m <sup>2</sup> )	
Gross Floor area of new building (m <sup>2</sup> )	
Gross site / land area (m <sup>2</sup> )	
Current uses of all parts of the building(s) / land (if vacant please state)	
Proposed use of all parts of the building(s) / land	

Residential Buildings Only – please complete the following details on residential structures	
Is the proposed building attached, detached or semi-detached	
Number of one bedroom dwellings in the proposed development	
Number of two bedroom dwellings in the proposed development	
Number of three bedroom dwellings in the proposed development	
Number of four bedroom dwellings in the proposed development	
Ultimate height of the development (m)	
Number of pre-existing dwellings on site	
Number of dwellings to be demolished	
Number of dwellings proposed as part of this certificate	
Number of storeys proposed in the new building(s)	
Number of proposed lots

# Complying Development Certificate Checklist

Document Number: 20/157323 / TRIM SF20/3529

[In addition to Council's application form OR if submitting your application via the NSW Planning Portal, you must complete the relevant sections of this checklist and attach to your application.

It is recommended that applicants should obtain a planning certificate issued under s10.7 of the *Environmental Planning and Assessment Act 1979* from Council.

All plans and documents must be provided in accordance with Council's Electronic Lodgement Guidelines.

Please note that an incomplete form and insufficient associated documents may result in rejection of your application, and require re-submission of the application.]

## Information for the Applicant

Once completed, this application form may be submitted to Council for determination. Please note:

- A single application for a CDC may be made for development comprising the concurrent construction of new single storey or two storey dwelling houses if each is to be erected on existing adjoining lots.
- If the certifying authority issues a CDC, the Applicant (or a subsequent owner of the land on which the development is proposed to be carried out) has permission to carry out the development without the need to obtain further development consent.

**However**, depending upon factors such as the type of development, the location of the development and whether there will be external work or activities involved (eg. road opening, use of footpath areas) there may still be a need to obtain other approvals in order for the work involved to be performed. A list of the possible additional approvals that may be required can be obtained from the Department of Planning & Environment at [www.planning.nsw.gov.au](http://www.planning.nsw.gov.au). In order to avoid potential delays in commencing any work, Applicants should ascertain whether other approvals will be needed, and if so, the stage at which they will be required.
