

# Hand print book

## You will need

- Cardboard (coloured and white)
- Hole punch
- Scissors
- Ribbon
- Crayons or coloured pencils

## Step 1

Trace around your hand on the colored paper so that you have a template with which you'll create the rest of the pages for your book.

## Step 2

Trace around your hand print on the white paper to create the inside pages of your book.

## Step 3

Draw things about yourself and write on the pages so that you have a way to "read" your story.

## Step 4

Finally, put all the pages of your book together so that all your fingers match up and use a hole punch to add a hole to the bottom of the hand. String a ribbon through, tie it off.

## Step 5

You've got yourselves a fun little book that is all about you.
