

Curious Cats

You will need:

- Black cardboard
- Colour paper
- White paper
- Glue
- Scissors
- Hole punch
- Googly eyes

Step 1:

- Cut out shapes - long strips (body) - thinner strips with pointy end (tail) - heart shape (head) - big oval shapes (ears) - small oval shapes (inner ears).

Step 2:

- Use small ovals as a template to cut out inner ears on coloured paper.

Step 3:

- For the body, fold the long strips and connect the two ends together so it looks like a semi circle. Secure with tape.

Step 4:

- Glue the coloured ovals onto the black ovals to make the ears and glue these on the cat's head (the heart shaped piece with the pointy end on top).

Step 5:

- Use a hole punch to create a circle for the cat's nose, then glue it to head. Glue on googly eyes and cut out thin strips of white paper for whiskers and stick them on.

Step 6:

- Glue cat's tale to the back of cat's body.

Step 7:

- Fold the black strip of cardboard like an accordion into folds. Glue the cat's head to one end and the other end to the front of the cat's body.
