Background

- A Rockdale LEP 2000 (Amendment No 29), relating to the Bonar Street Precinct at Arncliffe and Turrella, was gazetted on 31 October 2008. In making the plan the Minister for Planning deferred certain land from the plan, including the area of land required for a proposed public Community Park, and asked Council to further consider how the land required for the park could be secured in public ownership.
- B The Department of Planning requires the land for the Community Park to be zoned as an open space reservation. It suggested Council amend its section 94 contributions plan to incorporate the full cost of acquiring the park land.
- C Council adopted a strategy to acquire the land for the park by seeking to negotiate Planning Agreements with affected property owners for the dedication of this land at no cost, in exchange for a higher FSR on the remainder of their sites, provided any such FSR increase could be absorbed within the building height limits set by Rockdale LEP 2000 and the design principles of SEPP 65 could be met.
- D The Developer is the owner of the land identified in **Schedule 2**. A part of this land is required for part of the Community Park.
- E The Developer has requested an Instrument Change by way of an amendment to Rockdale LEP 2000 that would zone the land required for the Community Park as an open space reservation while allowing a FSR of 3.1:1 (up to a maximum GFA of 23,950 square metres) on the balance of the Developer's land (area 7,726 square metres).
- F The Developer has offered to enter into a Planning Agreement in accordance with section 93F of the Act in connection with the Instrument Change that will provide for

Community Park – 45 Bonar Street Arncliffe Planning Agreement

the dedication of land for the Community Park to Council at no cost (area 2,424 square metres, including adjacent road widening dedication).

- G The Developer is prepared to make Development Contributions in connection with the carrying out of the Development of the land in accordance with this Agreement.

Adjustment Note, Consideration, GST, GST Group, Margin Scheme, Money, Supply and Tax Invoice have the meaning given by the GST Law.

GST Amount means in relation to a Taxable Supply the amount of GST payable in respect of the Taxable Supply.

GST Law has the meaning given by the *A New Tax System (Goods and Services Tax) Act 1999* (Cth).

Input Tax Credit has the meaning given by the GST Law and a reference to an Input Tax Credit entitlement of a party includes an Input Tax Credit for an acquisition made by that party but to which another member of the same GST Group is entitled under the GST Law.

Taxable Supply has the meaning given by the GST Law excluding (except where expressly agreed otherwise) a Supply in respect of which the supplier chooses to apply the Margin Scheme in working out the amount of GST on that Supply.

48.2 Subject to **clause 48.4**, if GST is payable on a Taxable Supply made under, by reference to or in connection with this Agreement, the Party providing the Consideration for that Taxable Supply must also pay the GST Amount as additional Consideration.

48.5.2 that any amounts payable by each Party in accordance with **clause 48.2** (as limited by **clause 48.4**) to each other in respect of those Supplies will be set off against each other to the extent that they are equivalent in amount.

48.6 No payment of any amount pursuant to this **clause 48**, and no payment of the GST Amount where the Consideration for the Taxable Supply is expressly agreed to be GST inclusive, is required until the supplier has provided a Tax Invoice or Adjustment Note as the case may be to the recipient.

48.7 Any reference in the calculation of Consideration or of any indemnity, reimbursement or similar amount to a cost, expense or other liability incurred by a Party, must exclude the amount of any Input Tax Credit entitlement of that Party in relation to the relevant cost, expense or other liability.
