Background

- A. The Developer owns the land identified in **Schedule 2 (Land)** being Lot 593 of DP 1043957. The Council owns the land identified in Schedule 6, being Lot 8 DP 14632 and Lots 6 and 7 DP 361824.
- B. The Parties have engaged in consultation and discussion regarding the master plan of the Land for about the past 2 years. During this period, the Developer, in collaboration and with consultation with the Council, has developed a masterplan concept in relation to the Land.
- C. The Land was subsequently included as a part of the Rockdale Town Centre Planning Proposal 2011 (**RTCPP**) submitted to the Department of Planning and Environment (**Department**). The RTCPP in summary sought flexibility for redevelopment by amending the *Rockdale Local Environmental Plan 2011* by increasing the maximum building height controls, removing the maximum FSR controls, permitting additional building height for larger development sites, rezoning land and facilitating the provision of new public open space and introduced performance criteria.
- D. On 5 November 2013, the Department made a gateway determination in relation to the RTCPP.
- E. On 15 October 2014, the RTCPP was deferred in respect to the Land.
- F. The gateway determination in relation to the RTCPP was revised on 6 May 2015.
- G. The Developer has sought changes to the LEP with respect to the Land as provided for in the Planning Proposal dated 7 May 2015 with respect to the Land (**Planning Proposal**). The Planning Proposal seeks to increase the height limit for the Land under the LEP to 47.15 m from the current 22 m. The Planning Proposal was developed in consultation and collaboration with the Council and in accordance with a planning concept presented to the Council.

- J. The Development Contributions that the Developer has agreed to make, upon provision of development consent for the development of the Land, are:
 - i. Establishment of North Park: Demolition of the existing buildings and structures and the construction of North Park on the Council Land, which will remain land owned by the Council and used for the benefit of the Rockdale Community;

 - iii. Construction of the Canal Walkway: Demolition of the existing buildings and structures and the construction of the Canal Walkway which will remain owned by the Developer and then an Owners Corporation, with the provision of rights of access and use to Canal Walkway in perpetuity for the benefit of the Rockdale Community;
 - iv. 4 Green Star Rating: That the development on the Land and the Council Land be constructed so as to achieve an improved environmental from the mandatory BASIX rating to a 4 Green Star Rating and that;
 - a. The 4 Green Star Rating is certified by the Green Building Council of Australia at the direction and cost of the Developer with reference to the Green Building Council of Australia Green Star rating system and matrix which maximises the benefits to the Rockdale Community by providing key credits to "Transport, land use and ecology and minimising emissions".
 - b. Insofar as reasonably practicable, the promotion of the development of the Land and the Council Land must include reference to the "4 Green Star Rating achieved with the assistance of the Rockdale City Council" or similar;
 - c. That throughout the development of the Land and the Council Land, the Developer will periodically update the Council of the design and works which achieve the 4 Green Star Rating; and
 - d.  - v. The provision of a Monetary Contribution.
- K. The Parties have agreed that no Development Contributions are to be provided if the Approved FSR is 3.9:1 or less.

**591-597 Princes Highway Rockdale:
Built Form and Public Domain Brief**

Proposal:

Bayside Council has received a planning proposal for the redevelopment of 591-597 Princes Highway (the Toyota Site). The development concept seeks to increase the development yield of the site, by increasing the existing Height of Buildings and building setbacks.

This document seeks to provide an overview of the scope and proposed management of the open space.

Context:

Rockdale Town Centre Master Plan

1-Community's Vision

The relevant community aspirations for the Town Centre, which were derived from the key themes of a community workshop, were to:

- *Encourage redevelopment of the Centre edges to make these areas more attractive*
- *Improve and provide more open space for a range of users including families and children*

2-Design Strategy 3: Increase the Vitality and Lifestyle

- *The lifestyle of the Centre will be improved by encouraging elements in the Town Centre with a social or public focus: open spaces, dining, entertainment, markets, community services*
- *Usable and safe open space will be provided that suits the needs of Rockdale's culturally diverse community*

3- Design Strategy 4: Improve the pedestrian experience

Improve the pedestrian experience:

- *Open spaces and laneways will be activated by the adjoining building uses*

Rockdale Town Centre Public Domain Plan

1-Public Domain Assessment

The public domain is considered to be the land in public ownership and/ or freely accessible to the public. This includes squares and parks, streetscape, including footpaths and verges, and privately owned public access corridors (i.e. malls, through-site links, arcades and interstitial zones and easements). The public domain may also include the interface between public and private; these are spaces that occur where building setbacks form an extension to streetscapes and open spaces. These interface spaces have been included for the purpose of a more thorough understanding of the public domain.

2-Limited Open Space

Open space facilities within the town centre core are limited.

[Providing adequate space and amenity would encourage longer stay and better activation for commercial retail and passive recreation.]

The open space constraints are as follows:

- Limited open space in overall quantum and individual park size.
- Poor quality of open space – general amenity, distribution and size range.
- Lack of appropriate scale i.e. large square or adequate pedestrian streets.
- Lack of connections (pedestrian and cycle paths) to the LGA's open space corridors

3-Urban Public Space Typology

Rockdale's public domain consists of a number of space typologies including squares and parks, streetscape, laneways and/or privately owned public access corridors (malls, through-site links, and arcades) as located in *Figure 3: Urban Public Space Typology*. These types are well represented and are integral in the public domain of Rockdale. The spaces outlined below are all part of a potential open space network of Rockdale. This network would provide an opportunity to improve pedestrian links and site connections. Refer figure 3 Urban Public Space Typology

4-Public Domain Concept Plan

Keats Avenue Green Space. Keats Avenue identified as a strong pedestrian connection linking the Seven Ways to Muddy Creek.

5-Public Domain Hierarchy - Streetscape

Town Centre Edge – Hierarchy Core

The Town Centre Core is the residential and light industrial zones surrounding Rockdale Town Centre. The materiality is to be modest and limited in detail. Overall this hierarchy is to inform the residential identity of the centre characterised with tree lined streets and green verges.
