NEW PLAY EQUIPMENT

TAYLOR STREET RESERVE PLAYSPEC PROPOSED WORKS

# Taylor Street Reserve, Kogarah - Playspace Construction Notification

## What are we doing?

Bayside Council is constructing a new playspace at Taylor Street Reserve, located on the corner of Guinea and Taylor Streets, to replace the existing playspace. The existing playspace in the east of the reserve will be decommissioned and the area turfed and mulched. The new playground will feature a variety of equipment catering for children of all ages, and includes:

- Play equipment for a range of ages and abilities;
- Climbing, balance, swinging, bouncing, sliding and sensory play activities;
- Shade sails over the playspace;
- New rubber wetpour undersurfacing;
- Formal seating and informal seating opportunities;
- Sandstone retaining walls and access path links to existing street footpaths;
- New park boundary fencing west and north of the new playspace;
- New tree planting in the landscape for amenity and shade.

## When are we doing it?

Construction will commence in August and be completed in Summer 2025, weather permitting.

For your safety please stay clear of construction zones and observe construction signage.

We apologise for any inconvenience.
