Pricing Principles

PRICING PRINCIPLES		CODE	PRICING BASIS	
Market	Service provided is in competition with another agency (private or public) and there is pressure to set a price which will encourage usage of the service.	M	Market Pricing	Price of the service is determined by examining alternative prices of surrounding service providers. Pricing may or may not recover full cost.
In-house	Service provided predominately for Council use but sale to external markets may defray costs.			
Public good	Service provides a broad community benefit. Impractical to charge for service on a user basis.	Z	Free (zero cost recovery)	Some services may be provided free of charge and the whole cost determined as a community obligation or public good.
Practical constraint	Service is a minor part of the overall operation of Council. Cost of collection far outweighs revenue received.			
Cost plus activity	The service is a profit making activity and the price paid by users should recover greater than the full cost of providing the service.	R	Rate of Return	This would include full cost pricing in addition to a profit margin to factor in a return to Council.
Penalty	Fee charged is greater than the full cost of the service to act as a disincentive.			
Utility	Fee charged for possession, occupation or enjoyment of Council land and air space by gas, electricity, water and telecommunications.			
Private good	Service benefits a particular user, making a contribution to their individual income, welfare or profits, without any broader benefits to the community.	F	Full cost recovery	Council recovers all direct and indirect costs of the service (including depreciation of assets).
Monopoly	Where Council has a monopoly over provision of the service and there is no community service or equity obligation.			
Development	Fee set will enable Council to develop and maintain a service.			
Contribution	Charges levied to compensate the community for an increase in demand for service or facilities as a consequence of a development proposal.			
Regulatory – non-fixed	Fees charged to cover costs incurred in legislative requirements where no community service obligation exists.			
Shared Benefit	Benefits from provision of the service accrue to the community as whole as well as individual users (Community Obligation).	P	Partial Cost Recovery	Council recovers less than the full cost (the reasons may include community obligation or legislation limits on charging).
Stimulus	A stimulus to the demand for the service is required. In the short term only part of the cost of the service is to be recovered.			
Evasion	Charging prices to recover full cost may result in widespread evasion.			
Equity	The service is targeted at low income users.			
Economic/ Social/ Community welfare	Service promotes or encourages local economic or social activity.			
Regulatory fixed	Fixed by legislation	L	Legal requirements	Price of the service is determined by legislation. Price may or may not recover full cost.

State Significant Development – pre-lodgement engagement

This fee will be charged for pre-lodgement engagement, consultation meetings with Council where the applicant is seeking verbal and/or written feedback to progress with a State Significant Development proposal through the Department of Planning, Housing and Infrastructure (DPHI).

Pre-lodgement fee	\$0.00	\$5,846.50	\$5,846.50	Y	Per Lodgement	Market Pricing
A further fee of 50% of the original fee may be charged where subsequent meetings and/or comments are sought. (at the discretion of the Manager)						

Development Application fees

NOTE: for staged development, the total DA fee for all stages must not exceed the fee that would be charged if the proposal was submitted as one application. Council will determine the appropriate proportion of the fee to be paid with each stage based on the amount of development proposed and the degree of assessment required.

If two or more fees are applicable to a single development application (such as an application to subdivide land and erect a building on one or more lots created by the subdivision), the maximum fee payable for the development is the sum of those fees.
